Computer-Assisted Career Decision Making Martin R. Katz, 2013-10-23 Discussing career decision making CDM career guidance a computerized system of career guidance and the interplay among them this book describes the way people sort themselves or are sorted into educational and occupational options The options represent the content of this book and the sorting represents the process The sequence of decisions may extend over a lifetime but several crucial choice points tend to occur at predictable stages in a career Career guidance is a professional intervention in CDM professional implies that practitioners conform to a standard of ethics knowledge and competence beyond what may be offered by other intervenors Guidance is partly an art but it is also partly a science at least an application of science based on a synthesis of logic and evidence derived from research The computerized System of Interactive Guidance and Information SIGI is a designated guidance treatment clearly defined and specified It was developed according to an explicit model derived from a particular rationale for guidance using modern technology to amplify the practice of career guidance The current version called SIGI PLUS TM is being used at more than a thousand colleges and universities as well as secondary schools libraries corporations community based organizations and counseling agencies These three interdependent topics are treated in a progression from a theory of CDM to a rationale and a model for guidance to the design and development of a system This book weaves together theory principles propositions rationales and models research and development The product of that development SIGI helps to define theory to exemplify it and to test it *Making Information Systems Work* Trevor J Bentley, 1981-05-07

Introduction to Computers' 1999 Ed. 1999 Edition , Advances in Computer Science - ASIAN 2004, Higher Level Decision Making Michael Maher, Michael J. Making IT Work Jeffrey R. Yost, 2017-10-06 The evolution of the multi billion dollar computer services industry from consulting and programming to data analytics and cloud computing with case studies of important companies The computer services industry has worldwide annual revenues of nearly a trillion dollars and employs millions of workers but is often overshadowed by the hardware and software products industries In this book Jeffrey Yost shows how computer services from consulting and programming to data analytics and cloud computing have played a crucial role in shaping information technology in making IT work Tracing the evolution of the

computer services industry from the 1950s to the present Yost provides case studies of important companies including IBM Hewlett Packard Andersen Accenture EDS Infosys and others and profiles of such influential leaders as John Diebold Ross Perot and Virginia Rometty He offers a fundamental reinterpretation of IBM as a supplier of computer services rather than just a producer of hardware exploring how IBM bundled services with hardware for many years before becoming service centered in the 1990s Yost describes the emergence of companies that offered consulting services data processing programming and systems integration He examines the development of industry defining trade associations facilities management and the firm that invented it Ross Perot s EDS time sharing a precursor of the cloud IBM s early computer services and independent contractor brokerages Finally he explores developments since the 1980s the transformations of IBM and Hewlett Packard the offshoring of enterprises and labor major Indian IT service providers and the changing geographical deployment of U S based companies and the paradigm changing phenomenon of cloud service

Making and Drawing Kyra Cane,2022-10-13 An essential examination of drawing as a tool used in the process of making as well as a form of making or decoration in itself It is common knowledge that artists often make preparatory sketches before they create a work but in fact this is only one of the ways in which artists are required to draw Makers across all disciplines draw in some form or another but often for diverse reasons and using very different methods Informed by interviews with artists across a broad range of disciplines and often with special access to their sketchbooks and studios Kyra Cane explores the many ways in which artists use drawing to inform inspire and create their work She describes how makers draw to record source material as a form of planning to develop surface decoration and three dimensional forms as a way of thinking about and reflecting on their work and shows you how they use new technology in their practice Lavishly illustrated and thoughtfully constructed *Making and Drawing* sheds new light on contemporary artists practice It is an essential read for visual arts students artists who want to use drawing differently or explore its potential in their practice and anyone who wants to know more about the secret stories behind the creation of these works
