Preposition Placement in English

A Usage-based Approach

Preposition Placement In English Thomas Hoffmann

Colette Moore

Preposition Placement In English Thomas Hoffmann:

Preposition Placement in English Thomas Hoffmann, 2011-01-06 Preposition placement the competition between preposition stranding What is he talking about and pied piping About what is he talking is one of the most interesting areas of syntactic variation in English This is the first book to investigate preposition placement across all types of clauses that license it such as questions exclamations and wh clauses and those which exhibit categorical stranding such as non wh relative clauses comparatives and passives Drawing on over 100 authentic examples from both first language English and second language Kenyan data it combines experimental and corpus based approaches to provide a full grammatical account of preposition placement in both varieties of English Although written within the usage based construction grammar framework the results are presented in theory neutral terminology making them accessible to researchers from all syntactic schools This pioneering volume will be of interest not only to syntacticians but also second language researchers and those working on variation in English

Standards of English Raymond Hickey, 2012-12-06 The notion of a standard variety of English has been the subject of a considerable body of research Studies have tended to focus on the standard features of British and American English However more recently interest has turned to the other varieties of English that have developed around the world and the ways in which these have also been standardised This volume provides the first book length exploration of standard Englishes with chapters on areas as diverse as Canada the Caribbean Africa Asia New Zealand and the South Pacific This is a timely and important topic edited by a well known scholar in the field with contributions by the leading experts on each major variety of English discussed The book presents in full the criteria for defining a standard variety and each chapter compares standards in both spoken and written English and explores the notion of register within standard varieties

Quoting Speech in Early English Colette Moore, 2011-02-24 This study of speech representation in English texts from 1350 1600 examines the problems of interpreting discourse in these early works

Signalling Nouns in English John Flowerdew, Richard W. Forest, 2015-01-22 Signalling nouns SNs are abstract nouns like fact idea problem and result which are non specific in their meaning when considered in isolation and specific in their meaning by reference to their linguistic context SNs contribute to cohesion and evaluation in discourse This work offers the first book length study of the SN phenomenon to treat the functional and discourse features of the category as primary Using a balanced corpus of authentic data the book explores the lexicogrammatical and discourse features of SNs in academic journal articles textbooks and lectures across a range of disciplines in the natural and social sciences The book will be essential reading for researchers and advanced students of semantics syntax corpus linguistics and discourse analysis in addition to scholars and teachers in the field of English for academic purposes

From Philology to English Studies Haruko Momma, 2013 An exploration of how philology contributed to the study of English language and literature in the nineteenth century

Medical Writing in Early Modern English Irma Taavitsainen, Päivi Pahta, 2011-02-03 Medical writing tells us a great deal about how the language

of science has developed in constructing and communicating knowledge in English This volume provides a new perspective on the evolution of the special language of medicine based on the electronic corpus of Early Modern English Medical Texts containing over two million words of medical writing from 1500 to 1700 The book presents results from large scale empirical research on the new materials and provides a more detailed and diversified picture of domain specific developments than any previous book Three introductory chapters provide the sociohistorical disciplinary and textual frame for nine empirical studies which address a range of key issues in a wide variety of medical genres from fresh angles The book is useful for researchers and students within several fields including the development of special languages genre and register analysis historical corpus linguistics historical pragmatics and medical and cultural history **Grammar, Rhetoric and Usage in English** Nuria Yáñez-Bouza, 2015 This detailed corpus based study shows how the placement and usage of the English preposition has changed since the sixteenth century **Letter Writing and Language Change** Anita Auer, Daniel Schreier, Richard J. Watts, 2015-07-16 This book draws on a range of informal letter corpora and outlines the historical sociolinguistic value of letter analysis **Interactions Across Englishes** Christiane Meierkord, 2012-04-26 The global spread of English has resulted in contact with an enormous variety of different languages worldwide leading to the creation of many new varieties of English This book takes an original look at what happens when speakers of these different varieties interact with one another Constructional Approaches to English Grammar Graeme Trousdale, Nikolas Gisborne, 2008-08-27 This collection of articles brings together new research from both established and emerging international experts in the study of English grammar all of whom have engaged with the notion of construction in their work The research here is concerned with both synchrony and diachrony with the relationship between Construction Grammar and other linguistic theories and with a number of issues in the study of grammar such as raising and control phenomena transitivity relative clause structure the syntax of gerunds attributive and predicative uses of adjectives modality and grammaticalization Some of the articles are written within a constructional framework while others highlight potential problems with constructional approaches to English grammar some of the articles are based on data collected from corpora some on introspection some of the articles suggest potential developments for diachronic construction grammar while others seek to compare Construction Grammar with other cognitive linguistic theories most particularly Word Grammar The research reported in this volume presents a series of ways of looking at the relationship between constructions and patterns in English grammar either now or in the past The book addresses scholars and advanced students who are interested in English grammar constructional approaches to language and the relationship between functional and formal issues in linguistic description and theory

The book delves into Preposition Placement In English Thomas Hoffmann.
