The papers in this volume were presented at an international conference organised in Athens May 11-14, 2004 and focus on the study of the Panathenaic Games, a Panhellenic athletic event that lasted for nearly a millennium. An international assembly of archaeologists, art historians, ancient historians, epigraphists, and classical scholars contributed to the discussion of the origins and the historical development of the Panathenaic Games in general and of individual contests in particular. The role of royal and other patrons in the Hellenistic and Roman periods as well as the form and meaning of victory dedications and other monuments generated by the games were also examined, making this a truly interdisciplinary study into this fascinating event. Two papers are in Greek. This handsomely illustrated conference volume is the first to concentrate exclusively on the games.
