Online Book Critical History Schizophrenia Palgrave Psychology:

Making Mental Health Elizabeth Roberts-Pedersen, 2024-08-07 *Making Mental Health* A Critical History historicises mental health by examining the concept from the madness of the late nineteenth century to the changing ideas about its contemporary concerns and status. It argues that a critical approach to the history of psychiatry and mental health shows them to constitute a dual clinical political project that gathered pace over the course of the twentieth century and continues to resonate in the present. Drawing on scholarship across several areas of historical inquiry as well as historical and contemporary clinical literature, the book uses a thematic approach to highlight decisive moments that demonstrate the stakes of this engagement in Anglo American contexts. By tracing the unfinished history of institutions, the search for cures for psychiatric distress, the growing interest of the nation state in mental health, the history of attempts to globalise psychiatry, the controversies over the politics of diagnostic categories that erupted in the 1960s and 1970s, and the history of theorising about the relationship between the psyche and the market, the book offers a comprehensive account of the evolution of mental health into a commonplace concern. Addressing key questions in the fields of history, medical humanities, and the social sciences, as well as in the psychiatry disciplines themselves, the book is an essential contribution to an ongoing conversation about mental distress and its meanings. Decolonizing Global Mental Health China Mills, 2014-04-11 *Decolonizing Global Mental Health* is a book that maps a strange irony. The World Health Organization (WHO) and the Movement for Global Mental Health are calling to scale up access to psychological and psychiatric treatments globally, particularly within the global South. Simultaneously, in the global North, psychiatry and its often chemical treatments are coming under increased criticism from both those who take the medication and those in the position to prescribe it. The book argues that it is imperative to explore what counts as evidence within Global Mental Health and seeks to de-familiarize current Western conceptions of psychology and psychiatry using postcolonial theory. It leads us to wonder whether we should call for equality in global access to psychiatry, whether everyone should have the right to a psychotropic citizenship, and whether mental health can or should be global. As such, it is ideal reading for undergraduate and postgraduate students as well as researchers in the fields of critical psychology and psychiatry, social and health psychology, cultural studies, public health, and social work.

Mental Health Ethics Phil Barker, 2010-11-09 *Mental Health Ethics* provides an overview of traditional and contemporary ethical perspectives and critically examines a range of ethical and moral challenges present in contemporary psychiatric mental health services.

Rethinking Psychological Anthropology Philip K. Bock, Stephen C. Leavitt, 2018-11-02 After over three decades of continual publication in multiple editions, the Third Edition of *Rethinking Psychological Anthropology* now with coauthor Stephen Leavitt describes the latest interests, concepts, and approaches in the field, with the inclusion of four new chapters.

and updates to earlier topics The premise of the previous editions remains that all anthropology is psychological and that the interplay between anthropological methods and the psychological theories existing in different times is dialectical Psychological anthropologists have grappled with changing trends in both disciplines including psychoanalytic holistic cognitive interpretive and developmental approaches It is important to appreciate these currents of thought to understand the state of the field today This text is thus a guide to that history along with a critique that may lead to a new synthesis It is an ideal choice for courses in psychological anthropology cross cultural psychology and the history of anthropology

De-Medicalizing Misery II E. Speed,J. Moncrieff,M. Rapley,2014-09-16 This book extends the critical scope of the previous volume De Medicalizing Misery into a wider social and political context developing the critique of the psychiatrization of Western society It explores the

contemporary mental health landscape and poses possible alternative solutions to the continuing issues of emotional distress

Neoliberal Psychology Carl Ratner, 2019-01-10 This provocative monograph defines the elusive concept of neoliberal psychology focusing on its form content and cultural contexts and establishing it as a core feature of modern society Its cross cultural analysis examines the reality of neoliberal psychology in the globalized world asserting that neoliberalism influences individuals sense of self identity and regardless of country of origin concept of nationality Macro cultural psychological theory opens out neoliberal psychology in its most visible aspects such as work life sexuality consumer behavior and the shared vision of the good life At the same time the author identifies profound social inequities and other negative aspects of neoliberal society and discusses how they may be corrected Included in the coverage Snapshots of neoliberal society and psychology A psychological theory for comprehending neoliberal psychology Neoliberalism as a cultural political economic ideological system The neoliberal class structure of phenomena Psychological and cultural emancipation and macro cultural psychological theory Since neoliberalism is the dominant social system in today s world and because it commands both strong support and strong criticism from diverse interest groups Neoliberal Psychology will be of general interest to a wide readership The book s psychological focus is a new window into neoliberalism that is more accessible than more technical accounts of its economics and politics and it should appeal especially to social science students and professors

Posthuman Community Psychology Michael Richards, 2023-05-02 Posthuman Community Psychology is an exploration of mainstream psychology through a critical posthumanity perspective examining psychology s place in the world and its relationship with marginalised people with a focus on people with disabilities The book argues that the history of modern psychology is underpinned by reductionism and individualism which is embedded within the contemporary psychology that we know today despite the challenges from critical and community psychologists who seek a more empowering inclusive and activist psychology The posthuman community psychology ideas that emerge in this book examine and intersect with mainstream psychology critical and community psychologies critical posthumanities and disability studies to propose an imaginative reflective and relational new psychology that represents a collection of possibilities that do not remain entrenched in older ways of thinking about humans and human connections Richards proposes that psychology has the potential to evolve and make a powerful and profound difference for marginalised people but a genuine desire for change from psychologists is essential for this to happen Illustrating the important considerations needed when examining the relationship between the discipline of psychology and marginalised people this book is fascinating reading for community psychology students and academics aspiring professional psychologists community workers and policy makers
