Decima Flottiglia MAS Walter S. Zapotoczny Jr., 2017-06-25 Previously unpublished accounts of the Italian frogmen force Many previously unpublished photos personal accounts and stories Detailed accounts of ships destroyed and sunk by Decima Flottiglia MASA highly interesting account of a little known force A group of determined human torpedoes motorboat operators and assault swimmers fought bravely for Italy in the Second World War and inspired fear and respect from the British Navy The actions of these men severely reduced British naval power in the Mediterranean Even with small numbers and using relatively limited resources the commandos were a very effective force in the war against the British By the end of

the war these men would sink or disable over 73 000 tons of Allied warships and over 128 000 tons of merchant shipping The story of the Italian commandos is one of determination and bravery Their tactics aroused confusion and nervousness with Allied commanders and their crews Italy's Decima Flottiglia Mas predates both the US Navy Underwater Demolition Teams that were formed in 1943 and forerunners of the better known US Navy SEALs and the British Royal Marines Special Boat Service formed as an offshoot of the Special Air Service in 1941 Perhaps the determination and actions of the Decima Flottiglia Mas qualify them as the best commandos of the Second World War Illustrations 16 black and white photographs

Italian Heavy Cruisers Maurizio Brescia, Augusto de Toro, 2024-01-05 A technical history of seven Italian heavy cruisers Trento Trieste Bolzano Zara Fiume Gorizia Pola a perfect companion volume to Italian Battleships When the Washington Naval Treaty of 1922 effectively banned the building of battleships competition between the major navies concentrated on the next most powerful category heavy cruisers limited to ten thousand tons displacement and eight inch guns Italy followed this trend the first design for what became Trento and Trieste being ordered in 1924 These were the fastest of the first generation Treaty cruisers but were very lightly armored and the succeeding Zara class of four ships were slower but better protected However before the final ship of this class Pola had been completed there was a return to the earlier fast lightly protected concept with the Bolzano although this ship also incorporated aspects of the Zara design The political background design history and technical features of these classes are covered in great depth in this volume They were important ships subject to incremental improvement so no two were identical and model makers will appreciate the space devoted to the variations in appearance using both description and illustration As major units of the Italian battle fleet they were more active than most during the war and their careers are fully detailed including analyses of damage suffered Tragically they were all sunk and the circumstance of each loss is explored As befits a technical history the book is thoroughly illustrated with ship and armament plans detail drawings and color camouflage schemes as well as an outstanding collection of photographs

Imprisoning the Enemy Nikolaos Theotokis, 2024-11-30 Offers a vivid examination of Axis prisoners of war during World War II detailing their experiences circumstances and the complexities of their captivity in various theatres from 1940 to 1945 Prisoners of war POWs are an important part in the history of the Second World War Nikolaos Theotokis in this vividly written book examines the subject taking a closer look at the hundreds of thousands of Axis military personnel including women mostly German who were held in POW camps POW cages prisons or forced labor camps after being captured by or surrendering to Allied forces between 1940 and 1945 in the North African European and Pacific theaters of operations Hundreds of cases of officers of the Wehrmacht and the SS as well as of the Royal Italian and the Imperial Japanese Armies have been grouped by the author in two main categories those who were taken prisoner by Allied forces and those who surrendered to them This is not a book about military might but about people many of whom were proven innocent victims of circumstance Officers who committed suicide to avoid capture and others who were charged and punished as war

criminals are separately presented along with a great number of foreign volunteers who were captured by or surrendered to Allied forces during the war after joining units of the German or the Japanese Armies Members of the military and secretarial staff of Adolf Hitler who were imprisoned after the German capitulation are also highlighted in the book along with cases of high ranking officers in co belligerent Romania who were harshly punished by their country s post war communist authorities for being anti communists and for having fought against the Red Army Another category also examined by the author are the German prisoners who were handed over to Joseph Stalin by the western Allies in May 1945 as a gesture of friendship although the Soviet Union had not signed the Geneva Convention This book is a concise authoritative account of the Axis POWs being also an unrivaled source of information on the subject

Mussolini's Army against Greece Richard Carrier, 2021-03-08 This book analyses why the Italian army failed to defeat its Greek opponent between October 1940 and April 1941 It thoroughly examines the multiple forms of ineffectiveness that plagued the political leadership as well as the military organisation Mussolini s aggression of Greece ranks among the most neglected campaigns of the Second World War Initiated on 28 October 1940 the offensive came to a halt less than ten days later by mid November the Greek counter offensive put the Italian armies on the defensive and back in Albania From then on the fatal interaction between failing command structures inadequate weapons and equipment unprepared and unmotivated combatants and terrible logistics lowered to a dangerous level the fighting power of Italian combatants This essay proposes that compared to the North African and Russian campaigns where the Regio Esercito achieved a decent level of military effectiveness the operation against Greece was a military fiasco Only the courage of its soldiers and the German intervention saved the dictator s army from complete disaster This book would appeal to anyone interested in the history of the world war and to those involved in the study of military effectiveness and intrigued by why armies fail

Very Special Ships Arthur Nicholson, 2015-10-30 *Very Special Ships* is the first full length book about the six Abdiel class fast minelayers the fastest and most versatile ships to serve in the Royal Navy in the Second World War They operated not only as offensive minelayers dashing into enemy waters under cover of darkness but in many other roles most famously as blockade runners to Malta In lieu of mines they transported items as diverse as ammunition condensed milk gold and VIPs Distinguished by their three funnels the Abdiels were attractive well designed ships and they were also unique no other navy had such ships and so they were sought after commands and blessed with fine captains To give the fullest picture of this important class of ships the book details the origins and history of mines minelayers and minelaying covers the origins and design of the class describes the construction of each of the six ships and the modified design of the last two tells in detail of the operational careers of the ships in the second World War when they played vital roles in the battle of Crete and the siege of Malta plied the hazardous route to Tobruk and laid mines off the Italian coast The post war careers of the surviving ships is also documented Written to appeal to naval enthusiasts students of World War II and modelmakers the author tells the story of these ships through first hand

Confronting Italy M J Pearce,2019-10-31 The hotly contested Mediterranean naval battles of 1940 initiated rapid developments that changed the face of naval warfare yet also had echoes of a previous and less complicated era when gunnery pure and simple dominated warfare at sea The actions were fought when the Royal Navy was still evolving its use of naval air power and when radar at sea was primitive and fitted to only a few ships while Italy s Regia Marina was handicapped by having access to neither Confronting Italy contains three previously classified Naval Staff Histories describing major naval surface actions of 1940 supported by a modern introduction setting them in context and also illustrates warships involved using WW2 US Navy Intelligence Dept documents Confronting Italy is in a series publishing previously classified documents in a new accessible format Plans illustrating the events described have been completely redrawn to include the composition and movements of the Italian actions off Calabria and Cape Spartivento
