Acupuncture in Neurological Conditions Val Hopwood, Clare Donnellan, 2010-07-23 Written by two leading experts in the field, *Acupuncture in Neurological Conditions* aims to improve patient care by combining Western and Traditional Chinese Medicine (TCM) concepts of treatment. Chinese medical patterns relevant to the application of acupuncture are described as well as key patterns of dysfunction based on a Western medical perspective. The place of acupuncture within the overall management of different neurological conditions is also discussed. Clinical reasoning options from both TCM and Western medical perspectives are provided and illustrated by real cases from clinical practice, forming a sound platform for true integrated medicine. Fully evidence based. Provides clinical reasoning options from TCM and Western medical perspectives. Illustrates clinical reasoning with real cases from clinical practice. Provides detailed examination of all major types of neurological conditions encountered in clinical practice.
