Pakistan's Development Social Private Incentives:

Pakistan's Development Gustav F. Papanek, 2024-10-04 In the 1950s Pakistan was generally considered to be a country that would remain among the poorest in the world but economic development in the decade to follow exceeded all expectations Gustav Papanek in the first thorough analysis of this achievement shows how Pakistan partly by design and partly by accident arrived at a successful blend of private initiative and government intervention in the economy This book which includes the only comprehensive industrial survey of an underdeveloped country sheds considerable light on the problems facing nations in similar circumstances **Pakistan's Development**, 1970 **Pakistan's Development** Edgar Leroy Morphet, 1967 **Trade Liberalisation and Regional Disparity in Pakistan** Muhammad Shoaib Butt, Jayatilleke S. Bandara, 2008-12-04 Pakistan's military which has directly controlled the country's affairs for more than half of its post independence history and which often retained real political power even during periods of democratic rule has played a significant role in trade liberalisation Regional disparities have increased since the beginning of major trade liberalisation attempts in the 1980s and at present regional conflicts and the associated regional disparities are extremely high The authors critically review the country's post independence political economy of trade liberalisation the resulting structural change and the story of regional disparities identifying possible relations with political regimes Using a regional computable general equilibrium CGE model the effects of trade liberalisation on regional disparities are quantitatively examined with an emphasis on the key export industries at a national level and on the relative output and employment growth at a regional level In the first study to distinguish a possible link between trade liberalisation and regional disparities under dissimilar political regimes such as autocracy and democracy Butt and Bandara use Pakistan as a case study to draw broader lessons for other developing countries This book will be of interest to academics economists political analysts and policymakers interested in development economics in general and South Asia in particular *Pakistan's Quest for Food Security* Asmi Raza, 1993 *Industrial Concentration and Economic Power in Pakistan* Lawrence J. White, 2015-03-08 Although observers of the Pakistani economy are well aware that a small number of family groups popularly called the twenty two families dominates the industrial structure of the country the actual effects of this concentration of economic power on income distribution and on other areas of widespread social and political concern are less well understood In this important work Lawrence J White uses the concepts of industrial organization analysis to achieve an overall view of the problems stemming from the marked industrial concentration in Pakistan After discussing the economic effects of industrial concentration as they apply generally to less developed countries Professor White reviews the Pakistani experience estimating the overall concentration of power that exists in manufacturing banking and insurance Following an estimate of the extent of concentration in individual markets he examines the origins of this concentration of power and analyzes its economic and noneconomic effects in Pakistan The author concludes with a review of the policies that Pakistan has pursued in dealing with

industrial concentration and suggests new courses of action for the future Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
