Palliative Medicine A Case Based Manual:

Palliative Medicine Doreen Oneschuk, Neil Hagen, Neil MacDonald, 2012-03-15 Palliative care is now an integral part of the undergraduate medical curriculum Medical education across the board is adopting a case based approach This book uses a series of cases to illustrate critical points in palliative medicine The case studies have been carefully chosen to reflect real life clinical practice The contributors illustrate through the case studies the desired skills attitudes and knowledge required in this field of medicine Since publication of the second edition many approaches to palliative care have been further refined and developed Ongoing research has led to the improved use of existing medications and the development of several new treatments More is known about the psychosocial existential distress experienced by patients and their families resulting in an improved understanding by health care providers of how best to approach and assist those affected by advanced illness and more is known about methadone and other medications with emerging uses The third edition of this highly popular book continues to offer a panoramic view of palliative care It introduces a number of new topics including Neurological Disorders The Last Days and Palliative Sedation

Palliative Medicine: A Case-Based Manual Susan MacDonald, Leonie Herx, Anne Boyle, 2021-12-08 Palliative medicine is the medical care provided for people who have a life limiting illness or condition It encompasses both the physical symptoms a person may experience but also the psychosocial emotional and ethical issues that may arise Now in its fourth edition *Palliative Medicine A Case Based Manual* walks clinicians through the management of the most common situations found in palliative medicine from diagnosis and managing symptoms through to grief and bereavement Using real patient case scenarios and an easy to read question and answer format it gives students and medical professionals an accessible evidence based entryway to gain the skills and knowledge needed to provide high quality palliative and end of life care to patients and their families This new edition has been fully updated to cover the latest guidance including new chapters dedicated to medical cannabis opioids grief and bereavement and wider issues including palliative care in the community structurally vulnerable populations and public health Written by over 50 experienced palliative care clinicians and educators this book will be a welcome guide for palliative care workers medical and nursing students and medical professionals of any specialty where palliative needs might arise

Children's Palliative Care: An International Case-Based Manual Julia Downing, 2020-04-01 This manual enables individuals working in children's palliative care CPC globally to learn through engaging real world cases The aim is to provide a clinical case based resource that is globally relevant and accessible to those working in CPC Drawing on case histories from around the world that reflect key issues and elements of CPC it provides a practical approach grounded in experience It addresses multidisciplinary care in the management of children and their families discusses cases from an international perspective and shares examples from a variety of countries utilising cases across a range of ages and conditions demonstrating holistic care It represents the first case based manual on global CPC and is endorsed and promoted by the International Children's Palliative Care Network

ICPCN Children's palliative care is a rapidly developing field both in the UK and internationally. The provision of CPC varies considerably with provision often being insufficient and over 65% of countries having no recognised CPC service provision whatsoever. As such while there are an estimated 21.6 million children who require palliative care in many areas of the world CPC is poor or non-existent and children are treated like little adults without their distinctive needs being recognised or understood. There is also a dearth of literature on CPC hence this clinical case based manual fills a gap in the market and is aimed at a global audience making it a unique text in the field.

Textbook of Palliative Medicine Eduardo Bruera, Irene Higginson, Charles F von Gunten, 2009-01-30. Textbook of Palliative Medicine provides an alternative truly international approach to this rapidly growing specialty. This textbook fills a niche with its evidence based multi professional approach and global perspective ensured by the international team of editors and contributing authors. In the absence of an international curriculum for the study of palliative medicine this textbook provides essential guidance for those both embarking upon a career in palliative medicine or already established in the field and the structure and content have been constructed very much with this in mind. With an emphasis on providing a service anywhere in the world including the important issue of palliative care in the developing nations Textbook of Palliative Medicine offers a genuine alternative to the narrative approach of its competitors and is an ideal complement to them. It is essential reading for all palliative care physicians in training and in practice as well as palliative care nurses and other health professionals in the palliative care team.

Palliative Medicine Neil MacDonald, Marcel Boisvert, Deborah Dudgeon, Neil Hagen, 1998. In line with much of today's medical teaching the authors of this unique book have used a series of cases to illustrate critical points in palliative medicine. The case outlines are linked to learning objectives throughout the case discussions are used to illustrate the desired attitudes skills and knowledge base outlined at the beginning of each chapter. In all thirty symptom problems and psychosocial issues are discussed including a number of symptoms not commonly considered in other textbooks such as sleep disorders. The comprehensive section devoted to psychosocial factors in palliative medicine contains an excellent chapter on ethics as well as chapters on cost containment and cultural issues in addition to the more commonly encountered psychosocial problems.
