The Wrong Hands Ann Larabee, 2015 A fascinating timely and often disturbing history of how underground do it yourself weapons manuals have influenced violent radicalism and how the state has responded

OverSuccess Jim Rubens, James M. Rubens, 2008 Why are one in three American adults pervasively dissatisfied with their lives Why is major depression seven times more likely among those born after 1970 than their grandparents Why are one in four of us addicted to at least one substance or behavior Why is America drowning in record personal and public debt Why did over 100 000 people humiliate themselves this year auditioning for Fox's American Idol Why are 80 percent of women unhappy with their bodies What is it about contemporary America that connects the swelling incidence of depression behavioral addictions eating disorders debt materialism sleep deprivation family breakdown rudeness fame fixation ethical collapse mistrust and monstrous acts of personal violence Drawing from emerging science in several fields and insights about our transformed social lives Rubens explains how genes commercial culture and global hyper competition have locked tens of millions of Americans into an unwinnable success benchmarks race and unleashed an epidemic of status defeat OverSuccess shows how and why the resulting social and psychological pathologies are different for baby boomers men and women Offering hope for our future Rubens outlines 20 ways that individuals businesses and voluntary organizations can satisfy the American drive for recognition and personal achievement without the toxic burdens of OverSuccess These cures range from holding the door for strangers and somatic cell gene therapy to responsible displays of wealth and building village scale social and business organizations

Guns on the Internet Connie Hassett-Walker, 2018-07-24 Gun rights and control are well trodden subjects with prior work supporting the right of citizens to own firearms discussing the failure of gun control efforts or warning about or exhorting citizen gun ownership among other things Although social media in their many forms have only come to dominate modern U S life during the past decade there has been little academic exploration of gun owner communities on the Internet and social media How do gun owners use social media How do they meet other gun owners online What do they talk about as relates to guns With a massive and well organized collection of support material Guns on the Internet faces these questions with an unbiased approach that seeks a foundation for mutual understanding Also available as an audiobook

Terrorism and the Limitation of Rights Stefan Sottiaux, 2008-02-29 Taking as a starting point the widely accepted view that states confronted with terrorism must find a proper equilibrium between their respective obligations of preserving fundamental rights and fighting terrorism effectively this book seeks to demonstrate how the design and enforcement of a human rights instrument may influence the result of that exercise An attempt is made to answer the question how a legal order's approach to the limitation of rights may shape decision making trade offs between the demands of liberty and the need to guarantee individual and collective security In doing so special attention is given to the difference between the adjudicative methods of balancing and categorisation The book challenges the conventional wisdom that individual rights in

times of crisis are better served by the application of categorical rather than flexible models of limitation. In addition, the work considers the impact of a variety of other factors including the discrepancies in enforcing an international convention as opposed to a national constitution and the use of emergency provisions permitting derogations from human rights obligations in time of war or a public emergency. The research questions are addressed through a comparative study of the terrorism-related restrictions on five fundamental rights protected under the European Convention on Human Rights and the United States Constitution: the right to freedom of expression, the right to freedom of association, the right to personal liberty, the right to privacy, and the right to a fair trial. The book offers both a theoretical account of the paradoxical relationship between terrorism and human rights and a comprehensive comparative survey of the major decisions of the highest courts on both sides of the Atlantic.

How to Kill Kris Hollington, 2014-07-31
Exploding telephones, pipe guns, and bullets made of teeth, aspirin, explosives, cobra venom, darts, a rifle that shoots around corners, a piss bomb, 10 cups of boiled urine mixed with nitric acid, exploding clams, samurai swords, karate chops, poisoned umbrellas, and a fuel-laden light aircraft. Sometimes even a regular gun. These are just some of the methods that have been used over the last fifty years to speed 4,000 VIPs to a premature end. How to Kill is not an encyclopaedia of assassination, but
