Le Français sur objectif universitaire Collectif, 2020-06-24 Depuis le colloque du Forum Heracles de juin 2009 Le Français sur Objectifs Universitaires et l'ouvrage de Jean Marc Mangiante et Chantal Parpette de 2011 Le français sur objectif universitaire le FOU ne cesse de gagner du terrain Dans cette optique le symposium Le français sur objectif universitaire entre apports théoriques et pratiques de terrain visait réunir des contributions répondant la problématique de l'intégration linguistique et la réussite académique des étudiants allophones dans l'enseignement supérieur en langue française que ce soit en France ou l'étranger En effet les contraintes de la mise en pratique du FOU rendent aujourd'hui essentielle une réflexion sur les liens entre théorie et terrain non seulement du point de vue linguistique mais aussi du point de vue didactique et ceci en contexte de français langue étrangère langue seconde et langue maternelle

Grande Grammaire Historique du Français (GGHF) Christiane Marchello-Nizia, Bernard Combettes, Sophie Prévost, Tobias Scheer, 2020-11-09 The existing major works on the history of the French language were published more than fifty years ago and are characterized by a largely a theoretical approach More than a hundred years after Ferdinand Brunot began to publish his monumental work the ambition of the Grande Grammaire Historique du Français GGHF is to present the evolution of the French language in its totality building on the contributions achieved by descriptive and theoretical research in recent decades It also offers several innovative aspects The GGHF is a grammar organized by themes rather than by periods and it reflects all major areas currently under debate in linguistics phonetics phonology morphology syntax semantics etc In addition it is based on a balanced corpus of several million words that has been designed especially for the GGHF with a selection of representative texts for each century The consideration of this corpus and the quantification of facts enable the authors to establish a close relationship between variation and change we believe that the interaction of these two aspects is the cornerstone for the interpretation of the evolution of French and of language in general In addition to the description of the evolution of French the analysis of language change thus also aims to contribute to the study of the evolution of language as such
