Third Reich Victorious Peter G. Tsouras, 2011-10-19 This book is a stimulating and entirely plausible insight into how Hitler and his generals might have defeated the Allies and a convincing sideways look at the Third Reich's bid at world domination in World War II What would have happened if for example the Germans captured

the whole of the BEF at Dunkirk Or if the RAF had been defeated in the Battle of Britain What if the U Boats had strangled Britain with an impregnable blockade if Rommel had been triumphant in North Africa or the Germans had beaten the Red Army at Kursk The authors writing as if these and other world changing events had really happened project realistic scenarios based on the true capabilities and circumstances of the opposing forces Third Reich Victorious is a spirited and terrifying alternate history and a telling insight into the dramatic possibilities of World War II
