Riding for Caesar Micheal P. Speidel, 2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Riding for Caesar** Michael P. Speidel, 1994 **De val van Rome** Adrian Goldsworthy, 2011-07-20 Het Romeinse Rijk was een lange tijd oppermachtig geen andere staat ooit heeft over alle landen rond de Middellandse Zee geheerst De Romeinen vormden niet alleen een politieke en militaire grootmacht maar waren hun tijd ook ver vooruit op het gebied van retoriek wetgeving literatuur wegenbouw en architectuur In de vierde eeuw werd het Rijk gesplitst in een westelijk en een oostelijk deel en niet lang daarna kwam het West Romeinse Rijk ten val Over de oorzaken bestaan vele theorieën Er wordt gesuggereerd dat wereldrijken een onafwendbare levenscyclus van opkomst en ondergang doorlopen De rol van het opkomende christendom grote Europese migratiestromen interne strubbelingen en de decadentie van de macht worden als verklaring genoemd In een breed opgezet boek vertelt Adrian Goldsworthy het complexe dramatische spannende verhaal van de ondergang van Rome over bloedige invasies en barbaarse staatsgrepen corrupte keizers sluwe hovelingen en de talloze kleurrijke burgers wier levens op het spel stonden Het resultaat is geschiedschrijving in de beste ouderwetse zin een prachtig verteld verhaal met kleurrijke personages dat ons denken over de val van Rome verdiept en nuanceert

Hadrianus Anthony Everitt, 2010-10-04 Everitt vertelt het allemaal fraai met veel inlevingsvermogen Fik Meijer in NRC Handelsblad Een nieuwe grote biografie van keizer Hadrianus de meest charismatische keizer ooit In deze biografie schetst Anthony Everitt de chaotische tijd waarin Hadrianus heerste maar schrijft ook over zijn woelige privéleven over het ongelukkige en kinderloze huwelijk met Sabina en zijn gedoemde relatie met de jonge Griek Antinous de liefde van zijn leven Op basis van nieuw recent ontdekt archeologisch materiaal werpt Everitt een nieuw licht op een van de meest charismatische figuren uit de klassieke geschiedenis *Emperors and Emperorship in Late Antiquity* María Pilar García Ruiz, Alberto J. Quiroga Puertas, 2021-01-11 What are the interrelationships between the language of rhetoric and the code of imperial images from Constantine to Theodosius How are imperial images shaped by the fact that they were produced and promoted at the behest of the emperor Nine contributors from Spain Italy the U K and the Netherlands will guide the reader about these issues by analyzing how imperial power was articulated and manipulated by means of literary strategies and iconographic programmes The authors scrutinize representations from Constantine to Julian and from the Valentinians to Theodosius by considering material culture and texts as interconnected sources that engaged with and reacted to each other

The Roman Empire from Severus to Constantine Patricia Southern, 2015-05-15 The third century of the Roman Empire is a confused and sparsely documented period punctuated by wars victorious conquests and ignominious losses and a recurring cycle of rebellions that saw several Emperors created and eliminated by the Roman armies In AD 260 the Empire almost collapsed and yet by the end of the third century the Roman world was brought back together and survived for another two hundred years In this new edition of *The Roman Empire from Severus to Constantine* Patricia Southern examines the

anarchic era of the soldier Emperors that preceded the crisis of AD 260 and the reigns of underrated and sometimes maligned Emperors such as Gallienus Probus and Aurelian whose determination and hard work reunited and re established the Empire Their achievements laid the foundations for the absolutist sacrosanct rule of Diocletian honed to ruthless perfection by Constantine whose reign transformed the pagan Empire into a Christian state The successes and failures of the rulers of the Roman world of the third century and the role of the armies and the civilians are re assessed in this revised and expanded edition of The Roman Empire from Severus to Constantine which incorporates the latest thinking of modern scholars and has been extended to cover the reign of Constantine and the foundations he laid on which the Christian empire was built This is a crucial volume for students of this fascinating period in Roman history and provides invaluable background for anyone interested in the fall of Rome the adoption of Christianity and the establishment of the Byzantine Empire The Roman Empire James W. Eder, 2018-05-01 Covering material from the time of Julius Caesar to the sack of Rome this topically arranged reference set provides substantive entries on people cities government institutions military developments material culture and other topics related to the Roman Empire The Roman Empire was one of the greatest and most influential forces of the ancient world and many of its achievements endure in one form or another to this day Because of its geographic breadth cultural diversity and overall complexity it is also one of the most difficult organizations to understand This book focuses on the Roman Empire from the time of Julius Caesar to the sack of Rome While most references on the Roman world provide a series of alphabetically arranged entries this work is organized in broad topical chapters on government and politics administration individuals groups and organizations places events military developments and objects and artifacts Each section provides 20 to 30 substantive entries along with an overview essay The work also provides a selection of primary source documents and closes with a bibliography of important print and electronic resources

Legions in Crisis: The Transformation of the Roman Soldier - 192 to 284 Paul Elliot ,2014-05-10 The third century AD was a turbulent and testing time for the Roman Empire A new and powerful foe in the east had risen up to challenge Rome directly Barbarians on the northern frontiers were now more aggressive and more numerous than before and internally the population of the empire had to contend with rampant inflation and a series of terrible plagues Unfortunately the chaos became magnified by a lack of continuity on the imperial throne The army had real political power in the third century making and unmaking emperors as it saw fit It had been aided in this by Septimius Severus the African emperor who had won out in the civil wars following Commodus assassination He increased the army s pay and granted other privileges While the army gained rapidly in size stature and political savvy during the reign of Septimius Severus it also accelerated a material transformation Armour shields helmets swords and javelins all began to be replaced with new styles Legions in Crisis looks closely at the new styles of arms and armour comparing their construction use and effectiveness to the more familiar types of Roman kit used by soldiers fighting the earlier Dacian and Marcomannic Wars What did this transformation

in military technology mean for the tactical choices used on the battlefield Although the outcome had looked in doubt the army and the empire it protected weathered the storm to emerge into the fourth century fully able to tackle the challenges of a new age Travel and Geography in the Roman Empire Colin Adams,Ray Laurence,2012-12-06 The remains of Roman roads are a powerful reminder of the travel and communications system that was needed to rule a vast and diverse empire Yet few people have questioned just how the Romans both military and civilians travelled or examined their geographical understanding in an era which offered a greatly increased potential for moving around and a much bigger choice of destinations This volume provides new perspectives on these issues and some controversial arguments for instance that travel was not limited to the elite and that maps as we know them did not exist in the empire The military importance of transport and communication networks is also a focus as is the imperial post system *cursus publicus* and the logistics and significance of transport in both conquest and administration With more than forty photographs maps and illustrations this collection provides a new understanding of the role and importance of travel and of the nature of geographical knowledge in the Roman world **Rome's Empire** Patricia Southern,2023-06-15 With parallels to today a significant new account of the Roman empire as a place of migration diversity and commerce as well as its traditional image as a military power
