Rigor Imagination Essays From The Legacy Of Gregory Bateson:

Rigor & Imagination Gregory Bateson, 1981 Rigor & Imagination C. Wilder, 1981-11-15 **Chaos, Complexity, Curriculum and Culture** William E. Doll, M. Jayne Fleener, John St. Julien, 2005 Although the fields of chaos and complexity are important in a number of disciplines they have not yet been influential in education This book remedies this dilemma by gathering essays by authors from around the world who have studied and applied chaos and complexity theories to their teaching Rich in its material recursive in its interweaving of themes conversational in its relationships and rigorous in its analysis the book is essential reading for undergraduates graduate students and professionals who deal with these important topics **Kenneth Burke + The Posthuman** Chris Mays, Nathaniel A. Rivers, Kellie Sharp-Hoskins, 2017-10-15 While rhetoric as a discipline is firmly planted in humanism and anthropology posthumanism seeks to leave the human behind This highly original examination of Kenneth Burke's thought grapples with these ostensibly contradictory concepts as opportunities for invention revision and importantly transdisciplinary knowledge making Rather than simply mapping posthumanist rhetorics onto Burke's scholarship Kenneth Burke The Posthuman focuses on the multiplicity of ideas found both in his work and in the idea of posthumanism Taking varied approaches organized within a framework of boundaries and futures the contributors show that studying the humanist theories of Burke in this way creates a satisfyingly chaotic web of interconnections The essays look at how Burke's writing on the human mind and technology from his earliest works to his very latest revisions interrelates with current concepts such as new materiality and coevolution Throughout the contributors pay close attention to the fluidity concerns and contradictions inherent in language symbolism and subjectivity A unique illuminating exploration of the contested relationship between bodies and language this inherently transdisciplinary book will propel important future inquiry by scholars of rhetoric Burke and posthumanism In addition to the editors the contributors are Casey Boyle Kristie Fleckenstein Nathan Gale Julie Jung Steven B Katz Steven LeMieux Jodie Nicotra Jeff Pruchnic Timothy Richardson Thomas Rickert and Robert Wess **Humor and the Healing Arts** Athena du Pré, 1997-11 A book for health communication scholars students healthcare professionals based on studies of humor used in healthcare environments **Explaining Communication** Bryan B. Whaley, Wendy Samter, 2013-03-07 Offering a direct sightline into communication theory Explaining Communication provides in depth discussions of communication theories by some of the foremost scholars working in communication today With contributions from the original theorists and scholars known for their work in specific theoretical perspectives this distinctive text breaks new ground in giving these scholars the opportunity to address students firsthand speaking directly to the coming generations of communication scholars Covering a wide range of interpersonal communication theories the scope of this exceptional volume includes the nature of theory and fundamental concepts in interpersonal communication theories accounting for individual differences in message production explanations of human communication from dyadic relational and or cultural levels and a history of communication theory Chapter authors offer

their own views of the core ideas and findings of specific theoretical perspectives discussing the phenomena those perspectives are best positioned to explain how the theories fit into the field and where future research efforts are best placed While by no means comprehensive Explaining Communication includes those theories that rank among those most often used in today's work that have generated a substantial body of knowledge over time and that have not been articulated in detail in other publications With detailed explorations and first hand discussions of major communication theories this volume is essential for students in communication studies interpersonal communication and advanced theory courses as well as for scholars needing a thorough reference to some of the most salient theories in communication today *The Handbook of Applied Communication Research* H. Dan O'Hair, Mary John O'Hair, 2020-04-24 An authoritative survey of different contexts methodologies and theories of applied communication The field of Applied Communication Research ACR has made substantial progress over the past five decades in studying communication problems and in making contributions to help solve them Changes in society human relationships climate and the environment and digital media have presented myriad contexts in which to apply communication theory The Handbook of Applied Communication Research addresses a wide array of contemporary communication issues their research implications in various contexts and the challenges and opportunities for using communication to manage problems This innovative work brings together the diverse perspectives of a team of notable international scholars from across disciplines The Handbook of Applied Communication Research includes discussion and analysis spread across two comprehensive volumes Volume one introduces ACR explores what is possible in the field and examines theoretical perspectives organizational communication risk and crisis communication and media data design and technology The second volume focuses on real world communication topics such as health and education communication legal ethical and policy issues and volunteerism social justice and communication activism Each chapter addresses a specific issue or concern and discusses the choices faced by participants in the communication process This important contribution to communication research Explores how various communication contexts are best approached Addresses balancing scientific findings with social and cultural issues Discusses how and to what extent media can mitigate the effects of adverse events Features original findings from ongoing research programs and original communication models and frameworks Presents the best available research and insights on where current research and best practices should move in the future A major addition to the body of knowledge in the field The Handbook of Applied Communication Research is an invaluable work for advanced undergraduate students graduate students and scholars **Communication and Consequences** Robert Norton, David Allen Brenders, 1996 The communicative process allows sometimes forces one to make connections about the self and simultaneously how the self relates to the other and the world The bonus of communicating is that one makes connections with other individuals Not only are social connections made but political business spiritual esoteric and functional connections as well Each connection holds the possibility of teaching the person more about the self and the world This book

helps individuals understand the dynamics of change particularly by focusing on enthymematic communication that can be used to effect change It demonstrates the simultaneous potential of communication to both constrain and free the individual The first part of the book establishes the theoretical ground by identifying the definitional issues defining communication and relating content and style to the sense making function of interaction The second part examines the primary consequences of interaction in both self and relational identity Communication creates self identification as well as relational identity both of which provide a means of stabilizing the self and simultaneously allowing for change *Empowering Mindfulness for Women* Leigh Burrows, 2021-04-12 Empowering Mindfulness for Women is centred around a 5 day intensive mindfulness course attended by eight women from different backgrounds The reader is invited to imagine they are actively participating in the teaching and learning moments and turning points encountered in teaching and learning mindfulness around themes such as making space for mindfulness safeguarding mindfulness for women engendering mindfulness mindfulness dreaming and a mandala of wisdoms Evocative accounts of experience bring to life the women's growing awareness that mindfulness can be both a separate practice and a natural part of life and that it can help them to nurture what they have neglected in themselves by not tapping into the full spectrum of their experience Each chapter provides useful follow up activities and questions for individual or group reflection journaling sharing and conversation Empowering Mindfulness for Women is aimed at those who teach mindfulness to women in educational community or clinical settings and at women who want to learn mindfulness in a manner that positions them as experts in their own learning *Society as Text* Richard Harvey Brown, 1987 Brown makes elegant use of sociological theory and of insights from language philosophy literary criticism and rhetoric to articulate a new theory of the human sciences using the powerful metaphor of society as text
