Rise Fall Muslim Regiment Sultanate:

The Rise and Fall of a Muslim Regiment Amir Mazor, 2015-09-16 This book focuses on the Man riyya regiment the mamluks of sultan al Man r Qal w n It traces the lives of these mamluks during the career of their master Qal w n ca 1260 1290 the period they ruled the Sultanate of Egypt and Syria de jure or de facto 1290 1310 and their aftermath during the third reign of sultan al N ir Mu ammad b Qal w n 1310 1341 Based on dozens of contemporary Arabic sources the book traces the political and military events of the turbulent Man riyya period as well as the basic military political principles and socio political practices that evolved during this period It suggests that the Man riyya period marks the beginning of the demilitarization or politicization of the Mamluk sultanate *The Mamluk Sultanate from the Perspective of Regional and World History* Reuven Amitai, Stephan Conermann, 2019-06-17 The Mamluk Sultanate represents an extremely interesting case study to examine social economic and cultural developments in the transition into the rapidly changing modern world On the one hand it is the heir of a political and military tradition that goes back hundreds of years and brought this to a high pitch that enabled astounding victories over serious external threats On the other hand as time went on it was increasingly confronted with modern problems that would necessitate fundamental changes in its structure and content The Mamluk period was one of great religious and social change and in many ways the modern demographic map was established at this time This volume shows that the situation of the Mamluk Sultanate was far from that of decadence and until the end it was a vibrant society although not without tensions and increasing problems that did its best to adapt and compete in a rapidly changing world **The Cambridge World History of Slavery: Volume 2, AD 500-AD 1420** Craig Perry, David Eltis, Stanley L. Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people **Thralldom** Stefan Brink, 2021 Explores the history and cultural practice of Viking slavery using a variety of sources including archaeology runes comparison with other related cultures toponymy anthroponymy and DNA analysis *That Most Precious Merchandise* Hannah Barker, 2019-09-27 The history of the Black Sea as a source of Mediterranean slaves stretches from ancient Greek colonies to human trafficking networks in the present day At its height during the fourteenth and early fifteenth centuries the

Black Sea slave trade was not the sole source of Mediterranean slaves Genoese Venetian and Egyptian merchants bought captives taken in conflicts throughout the region from North Africa sub Saharan Africa the Balkans and the Aegean Sea Yet the trade in Black Sea slaves provided merchants with profit and prestige states with military recruits tax revenue and diplomatic influence and households with the service of women men and children Even though Genoa Venice and the Mamluk sultanate of Egypt and Greater Syria were the three most important strands in the web of the Black Sea slave trade they have rarely been studied together Examining Latin and Arabic sources in tandem Hannah Barker shows that Christian and Muslim inhabitants of the Mediterranean shared a set of assumptions and practices that amounted to a common culture of slavery Indeed the Genoese Venetian and Mamluk slave trades were thoroughly entangled with wide ranging effects Genoese and Venetian disruption of the Mamluk trade led to reprisals against Italian merchants living in Mamluk cities while their participation in the trade led to scathing criticism by supporters of the crusade movement who demanded commercial powers use their leverage to weaken the force of Islam Reading notarial registers tax records law merchants accounts travelers tales and letters sermons slave buying manuals and literary works as well as treaties governing the slave trade and crusade propaganda Barker gives a rich picture of the context in which merchants traded and enslaved people met their fate

Islamisation A. C. S. Peacock, 2017-03-08 The spread of Islam and the process of Islamisation meaning both conversion to Islam and the adoption of Muslim culture is explored in the twenty four chapters of this volume Taking a comparative perspective both the historical trajectory of Islamisation and the methodological problems in its study are addressed with coverage moving from Africa to China and from the seventh century to the start of the colonial period in 1800 Key questions are addressed What is meant by Islamisation How far was the spread of Islam as a religion bound up with the spread of Muslim culture To what extent are Islamisation and conversion parallel processes How is Islamisation connected to Arabisation What role do vernacular Muslim languages play in the promotion of Muslim culture The broad comparative perspective allows readers to develop a thorough understanding of the process of Islamisation over eleven centuries of its history *Studies on the History and Culture of the Mamluk Sultanate (1250-1517)* Stephan Conermann, Toru Miura, 2021-03-08 The general field of study of this volume is the history and culture of the Mamluk Sultanate 1250 1517 It contains the proceedings of the First German Japanese Workshop held at the Toyo Bunko in Tokyo Japan The authors write about a variety of topics from rural irrigation systems to high diplomacy vis vis the Safavid empire and the Ottoman threat The volume includes case studies of important personalities and families living in the centres of Mamluk power such as Cairo and Damascus as well as analyses of contemporary writers and their stance toward the ruling military class Next to innovation in the field this volume is an agenda of an increasing globalisation of scholarship that is fertilizing future research

Mamluk Descendants Anna Kollatz, 2022-08-08 Research on the Mamluk period has so far remained relatively silent about the Mamluk descendants who are often referred to by the Arabic term *awlād al nās* roughly children of the elite After

Ulrich Haarmann's fundamental research on this group seems to have paused in comparison to the study dedicated to other social groups of Mamluk society. This volume brings together the results of an international conference and presents the state of the art in approaching the Mamluk descendants whose emic perception as a group and social roles were far more differentiated and variable than previously assumed. The contributions shed light on the status of the Mamluk descendants from a variety of viewpoints including historiographies, archival material and artifacts produced by Mamluk descendants.

The Mongol World Timothy May, Michael Hope, 2022-05-25. Drawing upon research carried out in several different languages and across a variety of disciplines, *The Mongol World* documents how Mongol rule shaped the trajectory of Eurasian history from Central Europe to the Korean Peninsula from the thirteenth century to the fifteenth century. Contributing authors consider how intercontinental environmental, economic and intellectual trends affected the Empire as a whole and where appropriate situate regional political, social and religious shifts within the context of the broader Mongol Empire. Issues pertaining to the Mongols and their role within the societies that they conquered therefore take precedence over the historical narrative of the societies that they conquered. Alongside the formation, conquests, administration and political structure of the Mongol Empire, the second section examines archaeology and art history, family and royal households, science and exploration and religion, which provides greater insight into the social history of the Empire, an aspect often neglected by traditional dynastic and political histories. With 58 chapters written by both senior and early career scholars, the volume is an essential resource for all students and scholars who study the Mongol Empire from its origins to its disintegration and legacy.

Chronicles of Qalāwūn and his son al-Ashraf Khalīl Translated by David Cook, 2020-03-19. This volume provides translations of texts on the Mamluk Sultan Qalwān 1279-90 and his son al-Malik al-Ashraf 1290-93 which cover the end of the Crusader interlude in the Syrian Levant. Translated from the original Arabic, these chronicles detail the Mamluk perception of the Crusaders, the Mongol menace, how this menace was confronted and a wealth of materials about the Mediterranean basin in the late thirteenth century. Treaties, battles, sieges and embassies are all revealed in these chronicles, most of which have not been translated previously. The translated texts provide a range of historical records concerning Qalwān and al-Ashraf and include the court perspective of Ibn Abd al-Hir, the later biography by his nephew Shafī and the writings of the Mamluk historian Baybars al-Mansūr.
