

A movie poster for 'River of Dreams'. The background is a painting of a river scene. A large, multi-masted sailing ship is in the middle of the river. A bright rainbow arches over the ship, its colors reflecting on the water. On the left bank, there are lush green trees and two small figures standing near the water's edge. The sky is a mix of soft pinks and oranges, suggesting a sunset or sunrise. The overall style is that of a classic movie poster.

government military recreation and the arts Creativity and Children's Literature Marianne Saccardi, 2014-07-31 Today's students need to be able to do more than score well on tests; they must be creative thinkers and problem solvers. The tools in this book will help teachers and parents start students on the path to becoming innovative, successful individuals in the 21st century workforce. The children in classrooms today will soon become adult members of society; they will need to apply divergent thinking skills to be effective in all aspects of their lives regardless of their specific occupation. How well your students meet complicated challenges and take advantage of the opportunities before them decades down the road will depend largely upon the kind of thinking they are trained and encouraged to do today. This book provides a game plan for busy librarians and teachers to develop their students' abilities to arrive at new ideas by utilizing children's books at hand. Following an introduction in which the author defines divergent thinking, discusses its characteristics, and establishes its vital importance, chapters dedicated to types of literature for children such as fantasy, poetry, and non-fiction present specific titles and relevant activities geared to fostering divergent thinking in young minds. Parents will find the recommendations of the kinds of books to read with their children and explanations of how to engage their children in conversations that will help their creative thinking skills. Extremely beneficial. The book also includes a case study of a fourth grade class that applied the principles of divergent thinking to imagine innovative designs and come up with new ideas while studying a social studies/science unit on ecology.

Legendary Locals of Greene County David Dorpfeld, Wanda Dorpfeld, 2014-10-27 Greene County was created in 1800 from parts of Albany and Ulster Counties and it is named after Gen. Nathanael Greene of Revolutionary War fame. Early on, the economy of the county was primarily agricultural with a few small mills, and most of the settlements located along the Hudson River and its tributaries. In the early 19th century, the economy took off as people from New England began settling the mountains to the west. The Susquehanna Turnpike opened, leather tanning and brick and pottery making became prominent, ice was harvested and shipped to New York City, ship building gained importance, and tourism started to be popular. Today, tourism is still important to the area, and the county features two major ski resorts. Much of Greene County is also part of the Catskill Mountain Park, which attracts many nature lovers all year round. Over the years, county natives and transplants have made many contributions to industry, entertainment, government, military recreation, and the arts.
