Decker's Log John G. Denham, 2012-11 I have written three short stories involving characters developed from *The Assistant*, a sea story, my earlier work. The principles Florence and John Decker are not a youthful married couple or are they your typical man and wife. Their backgrounds are as different as day and night but function better than any oyster movement. Captain John Decker spent most of his adult life at sea, a decorated career naval officer and later as a Licensed Master Mariner in command of a modern containership. His gregarious life style and good living was truncated by an unwilling physical plant that had enough bent but not broken. John survived and was offered a job ashore by his employer in a less responsible position with commensurate benefits. Life changed and so did John. Never a brilliant leader or exciting entrepreneur, he is successful because he thinks logically and communicates well. He would be outstanding if he knew what he was doing. He has survived 8 years in a middle management role and at age 65 planned to retire. Now married and relatively settled down, John plans to become a partner with Flo in a fledgling business.

Inquiry Associates Flo, a lawyer, ex-FBI Special Agent and a state judge, has found her true place as head of IA Inc. Started as a confidential consulting business, it quickly evolved into a problem-solving legal investigation resource for the U.S. Government and related friends. As the brains of the organization, Flo has numerous friends, acquaintances, and people she knows and people that know her on both sides of the law. One word describes her integrity: The Deckers try to live a normal life. They are frequently drawn astray by well-meaning friends and others that need their special help. This compendium relates to only three episodes in the life and struggles of Florence and John Decker of 1A Inc. and their daily attempt to normally exist.

BOMB A WEIGH John and Florence Decker try the good life only to be trapped in a national emergency that verges on catastrophe. A small, effective and efficient team of government and public volunteers react and, with unexpected assistance, battle time to seek solution.

THE FATHERS The Deckers are involved in investigating an international crime threat that if expanded can destroy governments and corrupt nations. A quickly organized response team bypasses procedures and attacks processes head on. The enemy is determined to be more powerful and corrupt than the existing rules can manage; therefore, a unique process and people are involved in the resolution.

THE PRIZE The past catches up with John Decker and a friend asks for assistance in a delicate matter involving an Asian nation. Each development creates a bigger problem. Political and international organized forces oppose and interfere at each opportunity. The friends of the Deckers respond and short-circuit processes and reach out to international leaders for help. The Inquiry Associates Inc. is in over its head until the U.S. Government is forced to be involved. The tide quickly turns as the professionals act.
