Selling Guantanamo Exploding The Propaganda Surrounding Americas Most Notorious Military Prison:

Selling Guantánamo John Hickman, 2013-05-14 In the aftermath of 9 11 few questioned the political narrative provided by the White House about Guant namo and the steady stream of prisoners delivered there from half a world away The Bush administration gave various rationales for the detention of the prisoners captured in the War on Terror they represented extraordinary threats to the American people possessed valuable enemy intelligence and were awaiting prosecution for terrorism or war crimes Both explicitly and implicitly journalists pundits lawyers academics and even released prisoners who authored books about the island prison endorsed elements of the official narrative In *Selling Guant namo* John Hickman exposes the holes in this manufactured story He shines a spotlight on the critical actors including Rumsfeld Cheney and President Bush himself and examines how the facts belie the official accounts He chastises the apologists and the critics of the administration arguing that both failed to see the forest for the trees 9/11 in European Literature Svenja Frank, 2017-11-28 This volume looks at the representation of 9 11 and the resulting wars in European literature In the face of inner European divisions the texts under consideration take the terror attacks as a starting point to negotiate European as well as national identity While the volume shows that these identity formations are frequently based on the construction of two Others the US nation and a cultural ethnic idea of Muslim communities it also analyses examples which undermine such constructions This much more self critical strand in European literature unveils the Eurocentrism of a supposedly general humanistic value system through the use of complex aesthetic strategies These strategies are in itself characteristic of the European reception as the Anglo Irish British Dutch Flemish French German Italian and Polish perspectives collected in this volume perceive of the terror attacks through the lens of continental media and semiotic theory *African Migrants and the Refugee Crisis* Olayiwola Abegunrin, Sabella O. Abidde, 2020-11-12 This book discusses African migration and the refugee crisis Economic political and social tension in the Middle East and in many parts of the Global South has induced historic mass migration across national and international borders The situation is especially dire in Africa where a sizable number of Africans have chosen or have been forced to leave their countries of origin for Europe and North America Written by an international team of scholars this edited book traces the refugee crisis around the world telling the necessary story of forced migration intentional exclusion and human insecurity from an Afrocentric lens The volume is divided into three sections Section I places African migration within the broader contexts of international history law economics and policy Section II discusses cases of African migration to Europe Latin America and the Mediterranean Section III considers negative consequences of mass African migration including the restriction and criminalization of migration post traumatic stress disorder and gender based violence A compelling account of risk resilience and global power dynamics this volume will be useful to students and researchers interested in African studies migration peace and conflict studies and policy as well as professionals practitioners NGOs IGOs governmental and humanitarian organizations *Middle East Politics* Mahmood

Monshipouri,2019-06-11 Aimed at undergraduate level courses this brand new textbook provides an overview of Middle Eastern politics offering in depth examination of the forces of stability change uncertainty and progress in the region Building on both historical and contemporary analysis the chapters are timely engaging and provocative covering topics such as Turmoil and transition in Middle Eastern politics The Arab Israeli conflict The Persian Gulf and global security The rise of the internet Terrorism and the Islamic State US Iran relations The role of new regional players such as China India and Russia Increasing investment in wind and solar energy in the post carbon era Providing a unique perspective on the major themes and current state of knowledge about the region this new textbook will be invaluable to students of Middle Eastern politics

Terrorists as Monsters Marco Pinfari,2019-11-15 From the chilling threats of the ISIS vampire to the view of al Qaeda as the Frankenstein the CIA created terrorism seems to be inextricably bound with monstrosity But why do the media and government officials often portray terrorists as monsters And perhaps more puzzling why do terrorists sometimes want to be perceived as such This book the first of its kind examines the use of archetypal metaphors of monstrosity in relation to terrorism from the gorgons of Robespierre s reign of terror to the dragons and lycanthropes of anarchism the beasts and blood licking demons of ethnonational terrorism and the hydras and Frankenstein s monsters of Islamic jihadism Marco Pinfari argues that politicians frame terrorists as unmanageable monsters not only in an effort at cultural othering and dehumanization but also to secure popular backing for rule breaking behavior in counter terrorism The book also explores the way that terrorists themselves impersonate monsters showing that several groups have pursued such a tactic throughout the history of terrorism It contributes to a number of ongoing public debates by highlighting how even when actors like the Islamic State present themselves as mad and irrational their tactics remain in essence rational Pinfari also provides an original historical outlook on the roots of monster metaphors and discusses several types of terrorism including state terrorism left wing terrorism anarchism ethnonationalist terrorism and white supremacist groups In unpacking the functions played by monster metaphors and by their impersonation **Terrorists as Monsters** helps the reader understand the political processes that hide behind the fangs

Bowstead,Katherine Brickell,Vandana Desai,Mike Dolton,Alasdair Pinkerton,Ayesha Siddiqi,2020-12-11 This Handbook provides the knowledge and tools needed to understand how displacement is lived governed and mediated as an unfolding and grounded process bound up in spatial inequities of power and injustice The handbook ensures first that internal displacements and their everyday re occurrences are not overlooked second it questions who counts by including displaced people who are less obviously identifiable and a clearly circumscribed or categorised group third it stresses that while displacement suggests mobility there are also periods and spaces of enforced stillness that are not adequately reflected in the displacement literature and fourth it re evokes and explores the place in displacement by critically interrogating peoples right to place and the significance of placemaking unmaking and remaking in the contemporary world The 50 plus chapters are organised
