Pwl From The Factory Floor

Carol Johnson, Andrew King

Pwl From The Factory Floor:

PWL from the Factory Floor Phil Harding, 2010 To the modern pop world Stock Aitken and Waterman and Waterman s PWL brand form a key link between the analogue past and the digital present of record production and writing The label and its studios produced so many pop hits in the 1980s that their name became a byword for success and perfection that they created a template expertly worked today by Simon Cowell is undeniable Packed full of anecdotes and production details PWL perfectly walks the line between gossip and fact representing the first account of the PWL world outside the core trio

Pop Music Production Phil Harding, 2019-06-28 Pop Music Production delves into academic depths around the culture the business the songwriting and most importantly the pop music production process Phil Harding balances autobiographical discussion of events and relationships with academic analysis to offer poignant points on the value of pure popular music particularly in relation to BoyBands and how creative pop production and songwriting teams function Included here are practical resources such as recording studio equipment lists producer business deal examples and a 12 step mixing technique where Harding expands upon previously released material to explain how Stay Another Day by East 17 changed his approach to mixing forever However it is important to note that Harding almost downplays his involvement in his career At no point is he center stage he humbly discusses his position within the greater scheme of events Pop Music Production offers cutting edge analysis of a genre rarely afforded academic attention This book is aimed at lecturers and students in the subject fields of Music Production Audio Engineering Music Technology Popular Songwriting Studies and Popular Music Culture It is suitable for all levels of study from FE students through to PhD researchers Pop Music Production is also designed as a follow up to Harding s first book PWL from the Factory Floor 2010 Cherry Red Books a memoir of his time working with 1980s pop production and songwriting powerhouse Stock Aitken Waterman at PWL Studios **Mixing Music**

Russ Hepworth-Sawyer, Jay Hodgson, 2016-12-01 This series Perspectives On Music Production collects detailed and experientially informed considerations of record production from a multitude of perspectives by authors working in a wide array of academic creative and professional contexts We solicit the perspectives of scholars of every disciplinary stripe alongside recordists and recording musicians themselves to provide a fully comprehensive analytic point of view on each component stage of record production Each volume in the series thus focuses directly on a distinct aesthetic moment in a record s production from pre production through recording audio engineering mixing and mastering to marketing and promotions This first volume in the series titled Mixing Music focuses directly on the mixing process This book includes References and citations to existing academic works contributors draw new conclusions from their personal research interviews and experience Models innovative methodological approaches to studying music production Helps specify the term record production especially as it is currently used in the broader field of music production studies **Modern**

Records, Maverick Methods Samantha Bennett, 2018-12-27 From the Fairlight CMI through MIDI to the digital audio

workstations at the turn of the millennium Modern Records Maverick Methods examines a critical period in commercial popular music record production the transformative digital age from the late 1970s until 2000 Drawing on a discography of more than 300 recordings across pop rock hip hop dance and alternative musics from artists such as the Beastie Boys Madonna U2 and Fatboy Slim and extensive and exclusive ethnographic work with many world renowned recordists Modern Records presents a fresh and insightful new perspective on one of the most significant eras in commercial music record production The book traces the development of significant music technologies through the 1980s and 1990s revealing how changing attitudes and innovative techniques of recording personnel reimagined recording processes and finally exemplifies the impact of these technologies and techniques via six comprehensive tech processual analyses This meticulously researched and timely book reveals the complexity of recordists responses to a technological landscape in flux

The Bloomsbury Handbook of Music Production Simon Zagorski-Thomas, Andrew Bourbon, 2020-02-06 The Bloomsbury Handbook of Music Production provides a detailed overview of current research on the production of mono and stereo recorded music The handbook consists of 33 chapters each written by leaders in the field of music production Examining the technologies and places of music production as well the broad range of practices organization recording desktop production post production and distribution this edited collection looks at production as it has developed around the world In addition rather than isolating issues such as gender race and sexuality in separate chapters these points are threaded throughout the entire text

Audio Mastering: The Artists Russ Hepworth-Sawyer, Jay Hodgson, 2018-09-28 Audio Mastering The Artists collects more than twenty interviews drawn from more than 60 hours of discussions with many of the world's leading mastering engineers In these exclusive and often intimate interviews engineers consider the audio mastering process as they themselves experience and shape it as the leading artists in their field Each interview covers how engineers got started in the recording industry what prompted them to pursue mastering how they learned about the process which tools and techniques they routinely use when they work and a host of other particulars of their crafts We also spoke with mix engineers and craftsmen responsible for some of the more iconic mastering tools now on the market to gain a broader perspective on their work This book is the first to provide such a comprehensive overview of the audio mastering process told from the point of view of the artists who engage in it In so doing it pulls the curtain back on a crucial but seldom heard from agency in record production at large

The Routledge Companion to Music, Technology, and Education Andrew King, Evangelos Himonides, S. Alex Ruthmann, 2017-01-20 The Routledge Companion to Music Technology and Education is a comprehensive resource that draws together burgeoning research on the use of technology in music education around the world Rather than following a procedural how to approach this companion considers technology musicianship and pedagogy from a philosophical theoretical and empirically driven perspective offering an essential overview of current scholarship while providing support for future research The 37 chapters in this volume consider the major aspects of the use of technology in

music education Part I Contexts Examines the historical and philosophical contexts of technology in music This section addresses themes such as special education cognition experimentation audience engagement gender and information and communication technologies Part II Real Worlds Discusses real world scenarios that relate to music technology and education Topics such as computers composition performance and the curriculum are covered here Part III Virtual Worlds Explores the virtual world of learning through our understanding of media video games and online collaboration Part IV Developing and Supporting Musicianship Highlights the framework for providing support and development for teachers using technology to understand and develop musical understanding The Routledge Companion to Music Technology and Education will appeal to undergraduate and post graduate students music educators teacher training specialists and music education researchers It serves as an ideal introduction to the issues surrounding technology in music education Music, Technology, Innovation Carol Johnson, Andrew King, 2024-12-03 Music Technology Innovation Industry and Educational Perspectives draws upon cutting edge practice in the use of technology from both a pedagogical and industry perspective Situated within the latest research this edited volume explores technological innovation from a musical perspective examines current trends within the industry and carefully considers them from an educational perspective Noted throughout history music education is responsive to industry innovations However emerging technologies often begin with over hyped promises before they move through various phases of development and are then repurposed for learning and teaching Educators can adopt an innovation and develop a framework that is pedagogically sound and learner centred Based on these ideas the authors together highlight industry innovations that have potential outcomes for engaging students in music learning within research informed practices build upon these ideas and identify proactive mechanisms for teaching music education and work towards developing a framework for understanding these phenomena The chapters address key topics including the ethics of technology AI and music online performance and teaching gamification big data teaching audio production acoustic ecology and more The examination of areas in contemporary innovation can further support the potential to empower teachers and students to understand the opportunities for teaching sustainability and growth in music education

Coproduction Robert Wilshire, Christopher Johnson, 2022-05-30 Coproduction is dedicated specifically to the study of an emerging field in music production musicology It explores the limits of what this field might be from the workings of a few individuals producing music together in the studio to vast contributions of whole societies producing popular music Taking a wide ranging approach to examining the field Coproduction looks through multiple formats including essays interviews and case studies with analysis and commentary of coproduction experiences at Abbey Road studios It does so by examining multiple disciplines from social science and coproduction in mental health to philosophy and mathematics At its extremes which is the extreme middle and not the blunt cutting edge the authors attempt to produce every song in their development of an all encompassing pop music concept peculiarly called Toast theory In attempting to unite the pragmatic collaborative

patterns of Vera John Steiner with philosophical postmodernist concepts of connection Coproduction has something to offer readers interested in the traditional workings of teams of producers as well as those seeking to understand the wider philosophy of collaboration in music production **Producing Music** Russ Hepworth-Sawyer, Jay Hodgson, Mark Marrington, 2019-03-28 During the last two decades the field of music production has attracted considerable interest from the academic community more recently becoming established as an important and flourishing research discipline in its own right Producing Music presents cutting edge research across topics that both strengthen and broaden the range of the discipline as it currently stands Bringing together the academic study of music production and practical techniques this book illustrates the latest research on producing music Focusing on areas such as genre technology concepts and contexts of production Hepworth Sawyer Hodgson and Marrington have compiled key research from practitioners and academics to present a comprehensive view of how music production has established itself and changed over the years
