Rien Plus Sauf Elle Vie:

Time in Exile Marcia Sá Cavalcante Schuback, 2020-03-01 Proposes a theoretically rich treatment of temporality within exile as gerundive time This book is a philosophical reflection on the experience of time from within exile Its focus on temporality is unique as most literature on exile focuses on the experience of space as exile involves dislocation and moods of nostalgia and utopia Marcia S Cavalcante Schuback proposes that in exile time is experienced neither as longing back to the lost past nor as wanting a future to come but rather as a present without anchors or supports She articulates this present as a gerundive mode in which the one who is in exile discovers herself simply being exposed to the uncanny experience of having lost the past and not having a future To explore this she establishes a conversation among three authors whose work has exemplified this sense of gerundive time the German philosopher Martin Heidegger the French writer and essayist Maurice Blanchot and the Brazilian writer Clarice Lispector The book does not aim to discuss how these authors understand the relation between time and exile but presents a conversation with them in relation to this question that reflects new aspects in their work Attempting to think and express this difficult sense of time from within exile Time in Exile engages with the relation between thought and language and between philosophy and literature Departing from concrete existential questions S Cavalcante Schuback reveals new philosophical and theoretical modes to understand what it means to be present in times of exile It is very rare that one can find in philosophy a book that has been written neither as a commentary nor as an exegesis of the authors in question but rather as an original and thought provoking reflection in which the author is the main philosophical voice in the book Mar a del Rosario Acosta Lopez coeditor of Aesthetic Reason and Imaginative Freedom Fredrich Schiller and Philosophy

Taunting the Useful Loumille Métros, 2024-08-06 In an epoch driven by hyper consumption and marvelously destructive futility and in the context of a hegemonic utilitarianism where one goes to university to work rather than to develop a meaningful philosophy of life the concept of the useful is perhaps one most in need of interrogation Taunting the Useful seeks to unsettle notions of usefulness and uselessness not merely by deconstructing these terms but by sidetracking them It doesn't reverse things by saying that what is useless is useful Rather taunting is teasing heckling tickling scratching the useful By elaborating a notion of the virtual useless Taunting the Useful seeks to tease the dimensions of wonder use and play through modalities contingencies and potentialities of the useless useful An experimental book it un does what it tells and is as much an object taunting and taunted as it is a description of taunting the useful Includes bonus chapters

Promised Lands Sam Rohdie, 2019-07-25 An attempt to locate cinema alongside philosophy painting geography and travel in terms of a history of modernism The book focuses on a collection of geographical and ethnographic films and photographs amassed by banker Albert Kahn in the 1900s arguably an instance of French modernism
