Rings Diana Scarisbrick,1993 **Rings** Diana Scarisbrick,1993-01-01 De geschiedenis van de ring en zijn sociale context vanaf de middeleeuwen tot heden *Beyond Adornment* Yvonne J. Markowitz,Susanne Gänsicke,2025-05-06 A must have for jewelry enthusiasts this engaging volume illuminates the ways in which jewelry has been used to craft and express identity Why do people wear jewelry What meaning does it hold for the wearer And what does the wearer hope it will convey to those they encounter or to someone viewing their image decades even centuries later Artistic renderings of the human figure in portraiture sculpture and other media in a range of allegorical historical and religious images often showcase jewelry The ornaments depicted in such designs offer an abundance of information that not only heightens our understanding of the subject but also provides insights into the imagination of the artist Jewelry enhances our enjoyment of works of art because it is visually compelling sensuous and laden with an array of associations and symbolic meanings Bringing together spectacular and significant art objects depicting figures wearing sumptuous personal adornments that define who they are within the specific milieus in which they lived this richly illustrated and accessible volume represents a novel interdisciplinary approach to the ways in which jewelry can be studied and understood **Cosmos and Materiality in Early Modern Prague** Suzanna Ivanič,2021 In the seventeenth century Prague was the setting for a complex and shifting spiritual world By studying the city s material culture this book presents a bold alternative understanding of early modern religion in central Europe *Death and the Body in the Eighteenth-Century Novel* Jolene Zigarovich,2023-01-10 Death and the Body in the Eighteenth Century Novel demonstrates that archives continually speak to the period s rising funeral and mourning culture as well as the increasing commodification of death and mourning typically associated with nineteenth century practices Drawing on a variety of historical discourses such as wills undertaking histories medical treatises and textbooks anatomical studies philosophical treatises and religious tracts and sermons the book contributes to a fuller understanding of the history of death in the Enlightenment and its narrative transformation Death and the Body in the Eighteenth Century Novel not only offers new insights about the effect of a growing secularization and commodification of death on the culture and its productions but also fills critical gaps in the history of death using narrative as a distinct literary marker As anatomists dissected undertakers preserved jewelers encased and artists figured the corpse so too the novelist portrayed bodily artifacts Why are these morbid forms of materiality entombed in the novel Jolene Zigarovich addresses this complex question by claiming that the body itself its parts or its preserved representation functioned as secular memento suggesting that preserved remains became symbols of individuality and subjectivity To support the conception that in this period notions of self and knowing center upon theories of the tactile and material the chapters are organized around sensory conceptions and bodily materials such as touch preserved flesh bowel heart wax hair and bone Including numerous visual examples the book also argues that the relic represents the slippage between corpse and treasure sentimentality and

materialism and corporeal fetish and aesthetic accessory Zigarovich's analysis compels us to reassess the eighteenth century response to and representation of the dead and dead like body and its material purpose and use in fiction In a broader framework *Death and the Body in the Eighteenth Century Novel* also narrates a history of the novel that speaks to the cultural formation of modern individualism

The Finger Angus Trumble, 2010-05-06 FROM THE AUTHOR OF A BRIEF HISTORY OF THE SMILE A COMPLETE INDEX OF THE DIGIT In this collision between art and science history and pop culture the acclaimed art historian Angus Trumble examines the finger from every possible angle His inquiries into its representation in art take us from Buddhist statues in Kyoto to the ceiling of the Sistine Chapel from cave art to Picasso's *Guernica* from Van Dyck's and Rubens's winning ways with gloves to the longstanding French taste for tapering digits But Trumble also asks intriguing questions about the finger in general How do fingers work and why do most of us have five on each hand Why do we bite our nails This witty odd and fascinating book is filled with diverse anecdotes about the silent language of gesture the game of love the spinning of balls superstitions relating to the severed fingers of thieves and systems of computation that were used on wharves and in shops markets granaries and warehouses throughout the ancient Roman world Side by side with historical discussions of rings and gloves and nail polish are meditations on the finger's essential role in writing speech sports crime law sex worship memory scratching politely at eighteenth century French doors instead of crudely knocking or merely satisfying an itch and of course in the eponymous show of contempt

LOOT MORTIMER RUSH, 2017-10-06 Gold jewels art land culture and more all man has ever had to offer has been up for grabs All pretense of goodness and morality is dropped the moment a quick bit of Loot is to be had Whether for the risk the rush greed or just desperate necessity the magnetic pull for ill gotten plunder is just too strong What is Loot but the art of swindle plunder and graft Rare treasures and exquisite goods are wasted just as fast as pilfered then lost or hidden in secret squirreled away some never to be found again Where could all this hidden Loot be Fortunately modern man has been afforded the time and resources to ponder enticing mysteries such as these Rather than carve out a ravaging path of Loot and plunder most of us challenge convention by peaceably seeking after the truth bound in these legends Perhaps in the process we will even turn up a hidden trove for ourselves

Titian's Touch Maria H. Loh, 2019-06-10 At the end of his long prolific life Titian was rumored to paint directly on the canvas with his bare hands He would slide his fingers across bright ridges of oil paint loosening the colors blending blurring and then bringing them together again With nothing more than the stroke of a thumb or the flick of a nail Titian's touch brought the world to life The clinking of glasses the clanging of swords and the cry of a woman's grief The sensation of hair brushing up against naked flesh the sudden blush of unplanned desire and the dry taste of fear in a lost shadowy place Titian's art Maria H Loh argues in this exquisitely illustrated book was and is a synesthetic experience To see is at once to hear to smell to taste and to touch But while Titian was fully attached to the world around him he also held the universe in his hands Like a magician he could conjure appearances out of thin air Like a philosopher his

exploration into the very nature of things channelled and challenged the controversial ideas of his day But as a painter he created the world anew Dogs babies rubies and pearls Falcons flowers gloves and stone Shepherds mothers gods and men Paint canvas blood sweat and tears In a series of close visual investigations Loh guides us through the lush vibrant world of Titian's touch Material Culture and Women's Religious Experience in Antiquity Carolyn Osiek, Catherine Gines

Taylor, Mark D. Ellison, 2021-09-27 How can material artifacts help illuminate the religious lives of women in antiquity In what ways do archaeological and art historical studies recover women's religious perspectives and experiences that the literary record misses or underrepresents The authors of the essays in this volume set out to answer such questions in fascinating new case studies of women and ancient religions in the Near East and Mediterranean world They cover a broad historical geographic and religious spectrum as they explore women's lives from the time of ancient Egypt in the second millennium BCE into the early medieval period from the Syrian Desert to Western Europe in the religious traditions of Egypt Canaan Greece Rome ancient Israel early Judaism and early Christianity Working at the intersections of religion archaeology art history and women's history these authors make fresh contributions to interdisciplinary studies and their essays will be of interest to students and scholars across these academic fields **Domestic Devotions in the Early Modern World**

, 2018-12-10 This volume sets out to explore the world of domestic devotions and is premised on the assumption that the home was a central space of religious practice and experience throughout the early modern world The contributions to this book which deal with themes dating from the fifteenth to the eighteenth century tell of the intimate relationship between humans and the sacred within the walls of the home The volume demonstrates that the home cannot be studied in isolation the sixteen essays that encompass religious history the histories of art and architecture material culture literary history and social and cultural history instead point individually and collectively to the porosity of the home and its connectedness with other institutions and broader communities Contributors Dotan Arad Kathleen Ashley Martin Christ Hildegard Diemberger Marco Faini Suzanna Ivani Debra Kaplan Marion H Katz Soyeon Kim Hester Lees Jeffries Borja Franco Llopis Alessia Meneghin Francisco J Moreno D'az del Campo Cristina Osswald Kathleen M Ryor Igor Sosa Mayor Hanneke van Asperen Torsten Wollina and Jungyoon Yang
