Purpose:

The purpose of this activity is to assist the understanding of Newton's 3rd Law of Motion. Students will learn how the interaction between two objects results in the objects moving in opposite directions.

Procedure and Questions:

1. Students will be [introduced to the Riverboat Simulator](#) and experiment with the various features included in the simulator. Some are listed in the document. The skills of the user, operating the game, should allow him/her to determine the direction of the boat and the speed of the boat. The simulation is for a riverboat, a motorboat, a tugboat, a ferry, and a barge.

After getting familiar with the program, the user should be able to determine the following questions:

1. "What is the speed of the boat?" (The speed of the boat is 1000 units per second.)
2. "What is the direction of the boat?" (The direction of the boat is 0 degrees.)

After the user has answered the questions, the user should be able to determine the following:
