Riding the Wind Peter Marshall, 2009-06-10 Where do we come from What are we Where are we going In seeking answers to these fundamental questions Peter Marshall develops a dynamic and organic philosophy for the third millennium which he calls liberation ecology Deep social and libertarian it seeks to free nature society and individuals from their existing burdens so that they can realize together their full potential Riding the Wind presents a fresh and inspired vision which combines ancient wisdom and modern insights reason and intuition science and myth It is an exciting and uplifting work on how to live well and in harmony with oneself with others and with nature It will appeal to all those adventurous spirits who are searching for meaning and who wish to find their rightful place within the universe **Where the Spirits Ride the**

Wind Felicitas D. Goodman, 1990-08-22 The author discovered a method by which spirit conductive altered conscious states can be studied During the course of her experimentation the author and her coworkers discovered thirty postures which made possible what she terms psychological archeology They found that their visionary experiences were not merely personal visions but in many cases were manifestations of some of the most ancient myths of Western folklore and non Western religious traditions Individuals during these trances were experiencing a recreation of the sacred part of the lifeways of the hunters and gatherers This book includes a practical guide on how to achieve such ecstatic experiences

Provided by publisher *Ride the Wind Laughing* Kit Cain, 2006-05 Ride The Wind Laughing is about building a 51 foot sailboat almost single handedly in the back yard with virtually no money at least it started out that way It s about the mystical nature of the Laws of Manifestation about how dreams and distant possibilities come into existence on Planet Earth Over a period of four and a half years a series of events unfolded that were far more interesting than the long hours of hard physical labor or the recounting of boring and repetitive tasks essential to any physical construction project Working with the wonderful people of rural Nova Scotia its fishing villages and small local businesses proved as interesting as the magical unfolding of events making it impossible to deny that life itself is controlled by some great invisible hand which has a vested interest in seeing Its creations completed and It s dreams fulfilled At the age of 44 I had come to a second major crossroad in my life The first occurred when I left behind the world of corporate business at age 35 The next 9 years were years of spiritual and religious training and the study in detail of as many aspects of esoteric thinking as I intuitively felt led to

greater and greater things I finally came to the point where my questions all ceased I had sound mental concepts and could talk the talk but I had not yet walked the walk to the journey s end Of what value was all this information knowledge and perspective I had so diligently obtained if it could not be practically applied Ride the Wind Laughing is also a story about riding the winds of life with equanimity and contentedness despite the hardships of daily life It s about perspective about looking down on life much as would the student pilot on his very first flight Once the view from above is attained there s no going back to being land locked again Like the wind this is a story you can feel May it expand your perspective as it did mine
