Ring Mash Nursing School:

Handbook of School Mental Health Steven W. Evans, Julie Sarno Owens, Catherine P. Bradshaw, Mark D. Weist, 2023-02-28
The handbook provides thoughtful and provocative critiques of the science and practice of school mental health. It examines intervention science and implementation science and the study of professional development and stakeholder engagement. The volume outlines the relevant issues facing the field of school mental health and provides a framework for the areas of study. Chapters critique the science in a specific area, draw innovative connections between findings, and present new information about their area of expertise. This handbook provides a concise and critical update of the literature in school mental health and is an essential resource for those from the wide range of disciplines that constitute the science and practice of school mental health. Key topics featured include Promoting meaningful engagement and leadership in school mental health by diverse stakeholders, Training coaching and workforce development in school mental health, Intervention science for children with specific needs (e.g., anxiety, depression, trauma, autism), Innovations in scaling up, and Implementation science focusing on such topics as multitiered systems of support and scaleup of positive behavior support strategies. The handbook is an essential reference for researchers, graduate students, and other professionals in child and school psychology, special and general education, public health, school nursing, occupational therapy, psychiatry, social work, and counseling, educational policy, and family advocacy.

Evidence Based Practice in School Mental Health James C Raines, 2008-04-11
Though recent legislation embedded with the No Child Left Behind Act and the Individuals with Disabilities Improvement Act mandates the use of evidence in school based practice to demonstrate positive outcomes for all students, school social workers, especially those long out of school, often lack the conceptual tools to locate, evaluate, and apply evidence in order to demonstrate the effectiveness of their work. The first of its kind, tailored specifically to this audience, this SSAAA Workshop title guides school professionals in infusing research throughout their daily practice. It shows school service providers a pragmatic approach to informing every major practice decision with the appropriate research so that students receive the best possible services. This includes how to use research to make reliable and valid assessments, how to use research to choose the best intervention, and how to do research to evaluate progress. Raines goes beyond creating a catalog of interventions that will soon be outdated and provides school social workers with a detailed road map of the EBP process. Chapters detail the nuts and bolts of EBP, explaining how to ask a relevant, answerable question, where to search for evidence, how to appraise the literature and avoid the pitfalls of web-based information, how to adapt and apply the evidence in a developmentally and culturally sensitive way, and how to evaluate the results. Detailed examples along the way, including sample spreadsheets, practitioners can easily adapt to evaluate their students' progress, bring accountability

within reach for school professionals who struggle to find the time resources and support sufficient to apply the best evidence to their schools
