Europe's Growth Champion Marcin Piatkowski,2025-09-30

What makes countries rich What makes countries poor Europe s Growth Champion Insights from the Economic Rise of Poland seeks to answer these questions and many more through a study of one of the biggest and least heard about economic success stories Over the last thirty years Poland has transitioned from a perennially backward poor and peripheral country to unexpectedly join the ranks of the world s high income countries Europe s Growth Champion is about the lessons learned from Poland s remarkable experience the conditions that keep countries poor and the challenges that countries need to face in order to grow It defines a new growth model that Poland and its Eastern European peers need to adopt in order to continue to grow and catch up with their Western counterparts Europe s Growth Champion emphasizes the importance of the fundamental sources of growth institutions culture ideas and leaders in economic development It argues that a shift from an extractive society where the few rule for the benefit of the few to an inclusive society where many rule for the benefit of many was the key to Poland s success It asserts that a newly emerged inclusive society will support further convergence of Poland and the rest of Central and Eastern Europe with the West and help to sustain the region s Golden Age It also acknowledges the future challenges that Poland faces and that moving to the core of the European economy will require further reforms and changes in Poland s developmental character This new edition analyses what has changed in the global and Polish economy since 2018 In particular it discusses the effects of the COVID 19 pandemic climate change Russia s aggression against Ukraine and the ongoing restructuring of the global value chains It also diagnoses new opportunities and challenges for the future of Poland
