Risk and the English Novel Julia Hoydis, 2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and responsibility fears of decline and transgression all cluster around risk

Public Management and Vulnerability Gareth Addiddle, Joyce Liddle, 2020-07-07 This book locates the issue of vulnerability in an international context within public sector reform processes and goes beyond the conceptualization of existing concepts of policing and vulnerability to include multi and intra agency working It uncovers many competing and contradictory conceptualisations of the phenomenon and shows how a variety of agencies in different jurisdictions prioritise and operationalise this escalating 21st century social problem Two recurring themes of this edited collection are the ways in which non state organisations and agencies have become an acknowledged feature of modern service delivery and how the withdrawal of the state has heralded a perceptive shift from collective or community provision towards the stigmatization of individuals Increasingly public service professionals and street level bureaucrats work in collaboration with non state agents to attempt to ameliorate vulnerability Chapter contributions were deliberately drawn from combinatory empirical theoretical policy and practice fields and diverse academic and policy professional authors Editors and authors deliberately cast their nets widely to provide integrative
