Database and Expert Systems Applications Pablo García Bringas, Abdelkader Hameurlain, Gerald Quirchmayr, 2010-08-18 This book constitutes the refereed proceedings of the 21 International Conference on Database and Expert Systems Applications DEXA 2010 held in Bilbao Spain August 30 September 3 2010 The 45 revised full papers and 36 short papers were carefully reviewed and selected from 197 submissions The papers are organized in topical sections on Data Mining Systems Parallelism and Query Planning Data Warehousing and Decision Support Systems Temporal Spatial and High Dimensional Databases Data Mining Algorithms Information Retrieval Query Processing and Optimization *Automate the Boring Stuff with Python, 3rd Edition* Al Sweigart, 2025-05-20 The bestselling introduction to Python programming revised to include the latest Python features improved explanations and new chapters about databases and sound files If you've ever spent hours renaming files or updating hundreds of spreadsheet cells you know how tedious tasks like these can be But what if you could have your computer do this work for you In this fully revised third edition of Automate the Boring Stuff with Python you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand no prior programming experience required Early chapters will teach you the fundamentals of Python through clear explanations and engaging examples You'll write your first Python program work with strings lists dictionaries and other data structures then use regular expressions to find and manipulate text patterns Once you've mastered the basics you'll tackle projects that teach you to use Python to automate tasks like Searching the web downloading content and filling out forms Finding extracting and manipulating text and data in files and spreadsheets Copying moving renaming or compressing saved files on your computer Splitting merging and extracting text from PDFs and Word documents Interacting with applications through custom mouse and keyboard macros Managing your inbox unsubscribing from lists and sending email or text notifications New to this edition All code and examples have been thoroughly updated You'll also find four new chapters on database integration speech recognition and audio and video editing as well as 16 new programming projects and expanded coverage of developer techniques like creating command line programs Don't spend your time on work a well trained monkey could do Even if you've never written a line of code you can pass off that grunt work to your computer Learn how in Automate the Boring Stuff with Python , Algorithms and Architectures for Parallel Processing Haj Jin, Omer F. Rana, Yi Pan, Victor K. Prasanna, 2007-08-21 This book constitutes the refereed proceedings of the 7th International Conference on Algorithms and Architectures for Parallel Processing ICA3PP 2007 held in Hangzhou China in June 2007 Focusing on two broad areas of parallel and distributed computing the papers are organized in topical sections on parallel algorithms parallel architecture grid computing peer to peer technologies and advanced network technologies *Revolution* Carlton B. Brown, Mitigating the Risks of a 21st Century Climate Switch to global cooling and Running Out of Oil and Gas There is an urgent need to prepare the world for a 21st century climate switch to a cooling phase and this current grand solar minimum is a prime time

for that switch The world will face natural climate change related risks during the current grand solar minimum risks dismissed or ignored by the Intergovernmental Panel on Climate Change IPCC because of its constraining Articles 1 and 2 Solar scientists expert in climate change are warning us of a 21st century global cooling but the IPCC process has dismissed their science and that of other climate sub disciplines Climate forcing volcanism Arctic glacier expansion rapid climate change and the climate and volcanic related catastrophes that occurred during the Little Ice Age are risks that were also dismissed by the IPCC process Earth actually entered a new Ice Age 8 and 10 5 millennia ago in the Arctic and the Antarctic respectively Since the Holocene Climate Optimum 8 000 years ago Greenland s temperature declined by 4 90C to its lowest trough in 1700 The subsequent 1700 2016 trough to peak temperature rise is the largest temperature increase in 8 000 years Glacier ice accumulation also started 5 000 years ago reaching its peak during the Little Ice Age However since the mid 19th century much of this glacier ice melted as the sun entered an extreme grand solar maximum phase which human activity has exacerbated Section 3 of this book provides best practice strategies for implementing decentralized sustainable development and switching the world s energy system to renewable energy These strategies will be required to mitigate the yet unseen climate and resource supply related risks that loom on the horizon This book is pitched at the levels of central governments local governments and for you at home and is a must if you want to know the data driven facts about natural climate change

Automate the Boring Stuff with Python, 2nd Edition Al Sweigart, 2019-11-12 Learn how to code while you write programs that effortlessly perform useful feats of automation The second edition of this international fan favorite includes a brand new chapter on input validation Gmail and Google Sheets automations tips for updating CSV files and more If you ve ever spent hours renaming files or updating spreadsheet cells you know how tedious tasks like these can be But what if you could have your computer do them for you Automate the Boring Stuff with Python 2nd Edition teaches even the technically uninclined how to write programs that do in minutes what would take hours to do by hand no prior coding experience required This new fully revised edition of Al Sweigart s bestselling Pythonic classic Automate the Boring Stuff with Python covers all the basics of Python 3 while exploring its rich library of modules for performing specific tasks like scraping data off the Web filling out forms renaming files organizing folders sending email responses and merging splitting or encrypting PDFs There s also a brand new chapter on input validation tutorials on automating Gmail and Google Sheets tips on automatically updating CSV

files and other recent feats of automations that improve your efficiency Detailed step by step instructions walk you through each program allowing you to create useful tools as you build out your programming skills and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks Boring tasks no longer have to take to get through and neither does learning Python *Practical Industrial Data Communications* Deon Reynders, Steve Mackay, Edwin Wright, 2004-11-10 The objective of this book is to outline the best practice in designing installing commissioning and troubleshooting industrial data communications systems In any given plant factory or installation there are a myriad of different industrial communications standards used and the key to successful implementation is the degree to which the entire system integrates and works together With so many different standards on the market today the debate is not about what is the best be it Foundation Fieldbus Profibus Devicenet or Industrial Ethernet but rather about selecting the most appropriate technologies and standards for a given application and then ensuring that best practice is followed in designing installing and commissioning the data communications links to ensure they run fault free The industrial data communications systems in your plant underpin your entire operation It is critical that you apply best practice in designing installing and fixing any problems that may occur This book distills all the tips and tricks with the benefit of many years of experience and gives the best proven practices to follow The main steps in using today s communications technologies involve selecting the correct technology and standards for your plant based on your requirements doing the design of the overall system installing the cabling and then commissioning the system Fiber Optic cabling is generally accepted as the best approach for physical communications but there are obviously areas where you will be forced to use copper wiring and indeed wireless communications This book outlines the critical rules followed in installing the data communications physical transport media and then ensuring that the installation will be trouble free for years to come The important point to make is that with today s wide range of protocols available you only need to know how to select install and maintain them in the most cost effective manner for your plant or factory knowledge of the minute details of the protocols is not necessary An engineer s guide to communications systems using fiber optic cabling copper cabling and wireless technology Covers selection of technology and standards system design installation of equipment and cabling commissioning and maintenance Crammed with practical techniques and know how written by engineers for engineers

Broad Scale Coastal Simulation Robert J. Nicholls, Richard J. Dawson, Sophie A. Day (née Nicholson-Cole), 2015-08-26 Coastal zones exemplify the environmental pressures we face their beauty attracts settlement they offer potential for diverse economic activities and they are sensitive natural habitats for important species as well as providing a range of ecosystem services They are also extremely vulnerable to the vicissitudes of climate change which include rising sea levels and changes in extreme events such as storms With large populations living in coastal and estuarine cities facing the ongoing threat of inundation coordinated management is essential especially as coastal zones form a linked system in which piecemeal

uncoordinated management could be counterproductive *Three Miles Past* Stephen Graham Jones, 2024-10-01 From the New York Times bestselling author of the Indian Lake trilogy Three stories that uncover what's lurking just beyond your headlights Take a road trip into your darkest nightmares with three stories from the modern master of horror and one of the best writers working today NPR Here Bram Stoker Award winning author Stephen Graham Jones gives evil an all too familiar face whether it's the man from the dog shelter a colleague at a work convention or even just your phone Horror can reach you everywhere and when you least expect it In Interstate Love Affair a serial killer's unique way of disposing of his victims' bodies gives roadkill an even more gruesome meaning No Takebacks tracks how an app goes from an idea to coding to letting loose its creator's darkest impulses And there's nowhere to hide during The Coming of Night when a predator's latest kill sets off a creepy crawly timebomb inside of him Buckle up for page turning scares from a genuine horror superstar Esquire
