Strategic Communication in a Global Crisis Ralph Tench, Juan Meng, Ángeles Moreno, 2022-10-20 This edited volume makes a unique and timely contribution by exploring in depth the topic of strategic communication and COVID 19 from a global perspective It is widely agreed that effective and timely communication and leadership are crucial to the successful management of any pandemic With the ongoing and possibly long lasting impact COVID 19 has had on many aspects of communication and multiple sectors of our societies it is critical to explore the role of strategic communication in change management during the COVID 19 pandemic and beyond This book addresses such a need and is thoroughly grounded in rich empirical evidence gained through a global study of COVID 19 communication experiences and strategies In the second half of 2020 a transnational team of senior researchers conducted research to investigate COVID 19 communications COM COVID 19 in different countries representing Europe Africa Latin America North America South America and Asia The results presented in this book provide a compelling current picture of the COVID 19 pandemic and strategic communication globally Chapters individually explore the national and regional experiences and discuss relevant successes and failures of pandemic communication and specific learning from the 2020 2021 crises By emphasising the discussion on key communication channels sources of information facts and concerns as related to the COVID 19 pandemic the editors call for actions to develop effective strategies within unique national contexts which can shed light on global expectations on necessary public health responses and communication This book is written for scholars educators and professionals in communication public relations strategic communication and corporate communication It is also appropriate to use this book as a supplementary text for advanced undergraduate and graduate courses on relevant courses

Communicating Climate-Change and Natural Hazard Risk and Cultivating Resilience Jeanette L. Drake, Yekaterina Y. Kontar, John C. Eichelberger, T. Scott Rupp, Karen M. Taylor, 2015-11-05 This edited volume emphasizes risk and crisis communication principles and practices within the up to the minute context of new technologies a new focus on resiliency and global environmental change It includes contributions from experts from around the globe whose research advocacy teaching work or service in the natural or social sciences deals with risk communication and or management surrounding natural and technological disasters with a particular focus on climate change related phenomena Resilience and good communication are intimately linked and with climate change precipitating more numerous and onerous weather related catastrophes a

conversation on resilience is timely and necessary. The goal is robust communities that are able to withstand the shock of disaster. Communicating well under ordinary circumstances is challenging; communicating during a crisis is extraordinarily difficult. This book is dedicated to all those who have directly or indirectly suffered the effects of climate change and extreme events, with the hope that the advance of knowledge, implementation of sound science and appropriate policies, and use of effective communication will help in reducing their vulnerability while also improving resilience in the face of often devastating natural and technological disasters.
