Ellen Harmon White Terrie Dopp Aamodt, Gary Land, Ronald L. Numbers, 2014 In America as in Britain the Victorian era enjoyed a long life stretching from the 1830s to the 1910s It marked the transition from a pre modern to a modern way of life Ellen White s life 1827 1915 spanned those years and then some but the last three months of a single year 1844 served as the pivot for everything else When the Lord failed to return on October 22 as she and other followers of William Miller had predicted White did not lose heart Fired by a vision she experienced White played the principal role in transforming a remnant minority of Millerites into the sturdy sect that soon came to be known as the Seventh day Adventists She and a small group of fellow believers emphasized a Saturday Sabbath and an imminent Advent Today that flourishing denomination posts twenty million adherents globally and one of the largest education hospital publishing and missionary outreach programs in the world Over the course of her life White generated 50 000 manuscript pages and letters and produced 40 books that have enjoyed extremely wide circulation She ranks as one of the most gifted and influential religious leaders in American history and Ellen Harmon White tells her story in a new and remarkably informative way Some of the contributors identify with the Adventist tradition some with other Christian denominations and some with no religious tradition at all Taken together their essays call for White to be seen as a significant figure in American religious history and for her to be understood her within the context of her times

Churches in the mirror - Developing contemporary ecclesiologies Theological Explorations, Volume 4 Kobus Schoeman, 2020-01-01 Ecclesiology is the study of the church and has two focal points the one is the historical and doctrinal perspective on the church and the other is the church as situated in a local context in the sense of the local practices of actual congregations The ecclesiology or more correctly the ecclesiologies of this volume mainly focuses on the second aspect i e understanding the local congregation or parish as a community of believers A congregation may firstly be described by posing a theological question What is the local missional church or congregation all about This question may be answered from different perspectives but it remains essential to answer it from a theological perspective The first five chapters in this book focus mainly on a theological understanding of the congregation This is done from different disciplines within the study field of theology Congregations are secondly social realities and should be

described and analysed through an analytical or empirical lens or to answer the question attached to the first empirical descriptive task of practical theology What is going on The remaining chapters use a quantitative and qualitative lens and give an empirical analysis of the congregation The intention is to critically reflect on the church and congregations ecclesiology from a theological and analytical perspective with an emphasis on the South African context It wants to map markers for the development of contemporary ecclesiologies and the different chapters are meant as mirrors to look in and reflect on the theological and contextual relevance of denominations and congregations in South Africa Subject Guide to Books in Print ,1975 **The United States Catalog** Mary Burnham,Carol Hurd,1928 *Who's who in Omaha* ,1928
