Que Hacemos Frente A La Crisis Ecologica:

Qué hacemos frente a la crisis ecológica, 2012-11-12 Qu hacemos hoy cuando nos encontramos frente a la amenaza de una crisis mayor que la económica la ecológica Mientras centramos nuestra atención y esfuerzos en los problemas económicos el futuro inmediato está amenazado por una crisis ecológica de dimensiones desconocidas que el final del siglo XX y el comienzo del XXI han acelerado La devastación de la diversidad biológica el consumo de recursos naturales mucho más allá de la capacidad de regeneración de los mismos y el tremendo impacto de las actividades de producción y consumo en los niveles actuales parecen propios de depredadores extraterrestres que tomasen la Tierra por un planeta de usar y tirar Pero somos terrestres y no tenemos un planeta de recambio por lo que estamos obligados a una profunda transformación ecológica social y económica que frene y revierta la catástrofe Algunos cambios deben ser globales otros de ámbito nacional o regional pero también está en nuestra mano cambiar una vida depredadora por otra sostenible repensando las necesidades básicas y la forma de satisfacerlas

La ética ante la crisis ecológica Xabier Etxeberria Mauleón, 1995 En este trabajo partiendo de la constatación de que la crisis ecológica ha desvelado una relación moral con la naturaleza y tras la crítica al antropocentrismo depredador se analizan las diversas propuestas éticas que pueden iluminar la intervención humana en la naturaleza y en general la relación con ella organizándose en torno a tres opciones la teocéntrica la antropocéntrica y la cosmocéntrica y haciendo las oportunas conexiones con las respectivas tradiciones filosóficas Para que esa pluralidad de planteamientos sea fecunda y no desmotivadora se acaba con una propuesta de articulación de principios universales y máximos particulares en el ámbito de la ecología y con unas orientaciones prácticas dirigidas a enlazar la teoría con una acción que cada vez se presenta más urgente El trabajo se completa con un anexo que explana la relación con la naturaleza en la tradición cristiana política en más de un aspecto con dimensiones innegables de fecundidad

Ciudadanía global en el siglo XXI Rafael Díaz-Salazar, 2020-10-23 Esta obra colectiva ofrece un acercamiento desde diversas perspectivas al concepto y la práctica de la ciudadanía global a través de la educación y de la movilización social con el fin de facilitar su desarrollo dentro de la comunidad educativa La educación debe promover la toma de conciencia de que se vive en un mundo interrelacionado cuyo dinamismo no puede aprehenderse de forma local sino como un sistema global de conocimientos aptitudes y valores en cambio constante El paso de individuo a persona y de esta a ciudadano es un proceso educativo fundamental La adquisición de ciudadanía más allá de los derechos y deberes se lleva a cabo a través de la acción para construir una sociedad mejor

Globalización, crisis ambiental y educación, 2003-05 Ofrece una reflexión interdisciplinar acerca de la problemática ambiental de nuestro tiempo en el marco de la sociedad de la globalización

Cómo hacer clic hacia una nueva economía Luis Lehmann, 2021-06-18 Una nueva economía para un desarrollo económico sostenible Luego del parate mundial la aceleración de cambios que produjo la covid 19 nos lleva indefectiblemente a repensar un reinicio que conlleve nuevas soluciones La economía circular representa un novedoso paradigma en la gestión de los recursos que puede

ser la herramienta para impulsar la reactivación de la economía pospandemia Sin duda esta visión será liderada por un nuevo ser humano Homo circularis emergente de la retroalimentación entre una trilogía circular una sociedad consciente y colaborativa empresas responsables y un Estado emprendedor dinámico e inclusivo La geopolítica y la diplomacia también hacen su aporte distintos pasos se encaminan a priorizar el crecimiento con una agenda ambiental a raíz de la preexistente crisis climática Seremos mejores Seguramente seamos distintos Largas cuarentenas nos dieron mucho tiempo para pensar Surgirán nuevas soluciones para viejos dilemas Esta aceleración nos llevará a una revolución circular la del encuentro de la actividad del ser humano con la naturaleza Si creemos que es posible son necesarias acciones que impliquen un desarrollo económico competitivo y eficiente que genere beneficios y que apueste a la innovación a la vez que evite el cambio climático y promueva la generación de nuevos empleos verdes

Crisis del modo de vida imperial y transiciones ecosociales Ulrich Brand, 2024-02-23 Las múltiples crisis de naturaleza socioecológica y el agravamiento de los efectos del cambio climático dibujan un escenario preocupante a nivel global atravesado de crecientes desigualdades sociales y soluciones controvertidas como las promovidas por el capitalismo verde o la economía verde Más allá del cinismo o la ingenuidad de este tipo de propuestas cómo habrá que entender el alcance de estos problemas y afrontar una transformación socioecológica duradera y sostenible El politólogo

Ulrich Brand proporciona en este conjunto de ensayos que sintetizan una parte de sus contribuciones a las posibles salidas a la policrisis que vivimos una comprensión radical y emancipadora de la transformación socioecológica basada en la imbricación entre los procesos sociales y naturales y en una profunda crítica al modo de vida imperial capitalista a sus formas de producción consumo y explotación sometidas al imperativo del crecimiento Desde una doble perspectiva analítica y política estratégica Brand ensancha el horizonte de los debates actuales e indaga en las posibilidades transformadoras en distintos ámbitos el de una economía orientada al bien común y al poscrecimiento el de una ecología del trabajo en la que los sindicatos puedan ejercer un papel importante en la política medioambiental el de un renovado ecosocialismo capaz de promover otros modelos de bienestar y prosperidad que contrarresten las políticas antiecológicas más reaccionarias y refuercen los modos de vida solidarios tanto en el presente como en el futuro
