Cleaning Pakistan's Air Ernesto Sánchez-Triana, Santiago Enriquez, Javaid Afzal, Akiko Nakagawa, Asif Shuja Khan, 2014-06-26 The extent of urban air pollution in Pakistan South Asia's most urbanized country is among the world's most severe significantly damaging human health quality of life and the economy and environment of Pakistan The harm from Pakistan's urban air pollution is among the highest in South Asia exceeding several high profile causes of mortality and morbidity in Pakistan Improved air quality management AQM in Pakistan can have notable economic and health benefits For example the estimated health benefits per dollar spent on cleaner diesel are approximately US 1 1 5 for light duty diesel vehicles and US 1 5 2 4 for large buses and trucks This report advocates that Pakistan allocate resources to AQM because its air quality is severely affecting millions of Pakistanis and because experiences around the world indicate that interventions can significantly improve air quality This report details a broad spectrum of research on Pakistan's AQM challenges and identifies a comprehensive set of steps to improve air quality The research presented here underpins the conclusions that addressing Pakistan's urban air pollution requires coordinated interventions to strengthen AQM build agencies institutional capacity bolster AQM's legal and regulatory framework implement policy reforms and investments and fill knowledge gaps However Pakistan's policy makers face major obstacles including limited financial human and technical resources and can pursue only a few AQM interventions at the same time In the short term Pakistan's AQM should give highest priority to reducing pollutants linked to high morbidity and mortality PM2.5 and precursors like SOx and NOx from mobile sources A second level short term priority could be PM2.5 SOx and emissions of toxic metals from stationary sources An important medium term priority should be mass transportation in major cities controlling traffic and restricting private cars during high pollution episodes A long term priority could be taxing hydrocarbons based on their contribution to

greenhouse gases

Pakistan at the Crossroads Christophe Jaffrelot, 2016-04-12 In *Pakistan at the Crossroads* top international scholars assess Pakistan's politics and economics and the challenges faced by its civil and military leaders domestically and diplomatically. Contributors examine the state's handling of internal threats, tensions between civilians and the military, strategies of political parties, police and law enforcement reform, trends in judicial activism, the rise of border conflicts, economic challenges, financial entanglements with foreign powers and diplomatic relations with India, China, Iran, Saudi Arabia, Afghanistan, and the United States. In addition to ethnic strife in Baluchistan and Karachi, terrorist violence in Pakistan in response to the American-led military intervention in Afghanistan and in the Federally Administered Tribal Areas by means of drones, as well as to Pakistani army operations in the Pashtun area, has reached an unprecedented level. There is a growing consensus among state leaders that the nation's main security threats may come not from India but from its spiraling internal conflicts, though this realization may not sufficiently dissuade the Pakistani army from targeting the country's largest neighbor. This volume is therefore critical to grasping the sophisticated interplay of internal and external forces complicating the country's recent trajectory.

Sino-Pakistan Partnership Under the China-Pakistan Economic Corridor and the Burden of Expectations Murad Ali, 2025-07-18 This book has come up with the most up-to-date comprehensive and objective analysis of China's investments in Pakistan under the China-Pakistan Economic Corridor, a flagship project of the Belt and Road Initiative. It covers the broad range of Sino-Pakistan relations in the backdrop of Pakistan's complex political governance, security, socio-environmental, and technological challenges that hinder implementation of CPEC projects. Backed by robust empirical evidence, a unique feature of this volume is that it demystifies several myths about CPEC concerning debt trap narrative, China's win-win proposition, and Pakistan's mantra of game-changer and fate-changer. By examining Chinese infrastructure building initiative vis-à-vis competing economic initiatives such as the US G7-led Partnership for Global Infrastructure Investment, the Global Gateway strategy of the European Union, and the India-Middle East-Europe Economic Corridor of the G20, a distinctive significance of this book is that it aptly situates the implications of China's growing role in Pakistan in broader regional and global context.

Big Capital in an Unequal World Rosita Armytage, 2020-01-10 Inside the hidden lives of the global 1%, this book examines the networks, social practices, marriages, and machinations of Pakistan's elite. Benefitting from rare access and keen analytical insight, Rosita Armytage's rich study reveals the daily, even mundane ways in which elites contribute to and shape the inequality that characterizes the modern world. Operating in a rapidly developing economic environment, the experience of Pakistan's wealthiest and most powerful members contradicts widely held assumptions that economic growth is leading to increasingly impersonalized and globally standardized economic and political structures.

Pakistan Ian Talbot, 2022-02-22 If Pakistan is to preserve all that is good about its country, the generosity and hospitality of its people, the dynamism of its youth, it must face the deterioration of its social and political institutions. Sidestepping easy headlines to identify Pakistan's true dangers, this volume revisits the

major turning points and trends of Pakistani history over the past six decades focusing on the increasing entrenchment of Pakistan's army in its political and economic arenas the complex role of Islam in public life the tensions between central and local identities and democratic impulses and the effect of geopolitical influences on domestic policy and development While Ian Talbot's study centres on Pakistan's many failures the collapse of stable governance the drop in positive political and economic development and most of all the unrealised goal of securing a separate Muslim state his book unequivocally affirms the country's potential for a positive reawakening These failures were not preordained Talbot argues and such a fatalistic reading does not respect the complexity of historical events individual actors and the state's own rich resources While he acknowledges grave crises still lie ahead for Pakistan Talbot's sensitive historical approach makes it clear that favourable opportunities still remain for Pakistan in which the state has a chance to reclaim its priorities and institutions and reestablish political and economic sustainability

book is a major reinterpretation of politics in Pakistan Its focus is conflict among groups communities classes ideologies and institutions which has shaped the country s political dynamics Mohammad Waseem critically examines the theory surrounding the millennium long conflict between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu Muslim and Sikh renaissances that created a twentieth century clash of communities and led to partition Political Conflict in Pakistan addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment s institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power The author exposes how the ruling elite centralised power through the militarisation and judicialisation of politics rendering the federalist arrangement an empty shell and thus grossly alienating the provinces He sets all this within the contexts of education and media as breeders of conflict the difficulties of establishing an anti terrorist regime and the state s pragmatic attempts at conflict resolution by seeking to keep the outsiders inside This is a wide ranging account of a country of contestations

State and Nation-Building in Pakistan Roger D. Long, Gurharpal Singh, Yunas Samad, Ian Talbot, 2015-10-08 Religion violence and ethnicity are all intertwined in the history of Pakistan The entrenchment of landed interests operationalized through violence ethnic identity and power through successive regimes has created a system of authoritarian clientalism This book offers comparative historicist and multidisciplinary views on the role of identity politics in the development of Pakistan Bringing together perspectives on the dynamics of state building the book provides insights into contemporary processes of national contestation which are crucially affected by their treatment in the world media and by the reactions they elicit within an increasingly globalised polity It investigates the resilience of landed elites to political and social change and in the years after partition looks at the impact on land holdings of population transfer It goes on to discuss religious identities and their role in both the construction of national identity and in the development of sectarianism The book highlights how ethnicity and identity politics are an enduring marker in Pakistani politics and why they are increasingly powerful and influential An insightful collection on a range of perspectives on the dynamics of identity politics and the nation state this book on Pakistan will be a useful contribution to South Asian Politics South Asian History and Islamic Studies
