Palestine In The Egyptian Press From Al Ahram To Al Ahali:

Palestine in the Egyptian Press Ghada Hashem Talhami, 2007-09-09 Palestine in the Egyptian Press follows the evolution of the press institution in modern Egypt as well as of the prominent role the Palestine question played in its rise to political prominence Through the lens of the press author Ghada Hashem Talhami studies the development of democracy under authoritarian rule as successive Egyptian regimes struggled to curb and contain the power of the fourth estate The Palestine question began to impinge on Egypt's consciousness after World War I largely due to the manifest pro Zionist sentiments of a segment of the Jewish population At the same time rising Islamic groups and pan Arabist circles engaged in the national identity debate and quickly seized control of the Palestine question as the most vulnerable area of Egypt's security identity and borders Following the evolution of the press under Nasser Sadat and Mubarak Palestine in the Egyptian Press explores the restrictions and freedoms allowed to the media There is no better reference to explain the press syndicate's rise to prominence the success of generations of journalists in establishing Arabic as the formal language of Egypt or the Palestine issue as the centerpiece of Egypt's pan Arab policies The International Relations of the Contemporary Middle East Tareq Y. Ismael, Glenn E. Perry, 2013-10-01 The Middle East a few decades ago was seen to be an autonomous subsystem of the global international political system More recently the region has been subordinated to the hegemony of a singular superpower the US bolstered by an alliance with Israel and a network of Arab client states The subordination of the contemporary Middle East has resulted in large part from the disappearance of countervailing forces for example global bipolarity that for a while allowed the Arab world in particular to exercise a modicum of flexibility in shaping its international relations The aspirations of the indigenous population of the Middle East have been stifled by the dynamics of the unequal global power relationships and domestic politics of the countries of the region are regularly subordinated to the prerogatives of international markets and the strategic competition of the great powers Employing the concept of imperialism defined as a pattern of alliances between a center rulers in the Center developed country and a center client regime in the Periphery underdeveloped country as an overall framework to analyse the subordination of the region this book is essential reading for students and scholars of the Middle East International Relations and Politics in general *Towards the Dignity of Difference?* Mojtaba Mahdavi, 2016-02-24 The rise of popular social movements throughout the Middle East North Africa Europe and North America in 2011 challenged two hegemonic discourses of the post Cold War era Francis Fukuyama's The End of History and Samuel Huntington's The Clash of Civilizations The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East This is no less than a discursive paradigm shift a new beginning to the history a move towards new alternatives to the status quo This book is about difference and dialogue it embraces The Dignity of Difference and promotes dialogue However it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts particularly in cases involving

asymmetric and unequal power relations The distinguished group of authors suggests in this volume that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way is a radical call for an epistemic shift in our understanding of us other and good evil a radical approach toward accommodating difference as well as embracing the plural concept of the good The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies This important book will be essential reading for all those studying civilizations globalization foreign policy peace and security studies multiculturalism and ethnicity regionalism global governance and international political economy *Governance in the Middle East and North Africa* Abbas K. Kadhim, 2013 Governance in the Middle East and North Africa will analyze developments in this region of major importance looking at current issues in historical perspective and will be essential reading for academics students and policy makers and for anyone with an interest in Middle East policies and politics

Imagining the Perfect Society in Muslim Brotherhood Journals Kiki M. Santing, 2020-08-24 The investigation of the Egyptian Muslim Brotherhood during the presidencies of Anwar Sadat and the early years of Hosni Mubarak is based on the movement's main journals *al Da wa* and *Liw al Isl m* presenting its history during two relevant periods 1976 1981 1987 1988 These journals show that contrary to the focus in modern research e a sharia laws gender relations or ideas of democracy the Brotherhood is a much more broadly oriented social political opposition movement taking Islam as its guideline The movement's own versatile discourse discusses all aspects of daily and spiritual life An important adage of the Brotherhood is Islam as a *ni m k mil wa sh mil* a perfect and all encompassing system Faith should play a role in every aspect of daily life from cooking dinner and housekeeping to education holidays enemy images legislation and watching television Islam is everything and everything is Islam In its journals the Brotherhood provided its unique reflection of the spirit of the age The movement presented itself as a highly reactive group that responded to current events and positioned itself as a moral religious and political opposition to the Egyptian regime *Censorship and the Limits of the Literary* Nicole Moore, 2015-08-27 Though literature and censorship have been conceived as long time adversaries this collection seeks to understand the degree to which they have been dialectical terms each producing the other coeval and mutually constitutive On the one hand literary censorship has been posited as not only inescapable but definitive even foundational to speech itself One the other especially after the opening of the USSR's *spekstrahn* those enormous collections of literature forbidden under the Soviets the push to redefine censorship expansively has encountered cogent criticism Scholars describing the centralised control of East German print publication for example have wanted to insist on the difference of pre publication state censorship from more mundane forms of speech regulation in democracies Work on South African apartheid censorship and book banning in colonial countries also demonstrates censorship's formative role in the institutional structures of literature

beyond the metropole Censorship and the Limits of the Literary examines these and other developments across twelve countries from the Enlightenment to the present day offering case studies from the French revolution to Internet China Is literature ever without censorship Does censorship need the literary In a globalizing era for culture does censorship represent the final failed version of national control Historical Dictionary of Egypt Arthur Goldschmidt, Jr.,2023-07-25 Egypt is the world s oldest continuous country with a recorded past of over 6 000 years Often invaded conquered and occupied by foreign armies Egypt has never lost its identity The Egyptians of today although they have changed their language once and their religion twice descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak who served Alexander the Great and his heirs who submitted to Augustus Caesar and raised much of the grain that fed the Roman Empire who started Christian monasticism and the veneration of the Virgin Mary and who advanced and sustained Muslim learning in what is now the world s oldest functioning university It was and is one of the most important countries in the world Historical Dictionary of Egypt Fifth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Egypt Students and Resistance in Palestine Ido Zerkovitz,2014-12-17 Exploring the Palestinian Student Movement from an historical and sociological perspective this book demonstrates how Palestinian national identity has been built in the absence of national institutions whilst emphasizing the role of higher education as an agent of social change capable of crystallizing patterns of national identity Focussing on the political and social activities of Palestinian students in two arenas the West Bank and Gaza Strip and the Palestinian diaspora Students Palestinian student magazines PLO documents Palestinian and Arabic news media and archival records to demonstrate how the Palestinian Student Movements became a major political player this book is of interest to scholars and students of Palestinian History Politics and the Arab Israeli Conflict *Islamikaze* Raphael Israeli,2004-08-02 1 Sampling Muslim reactions to the New York and Washington horrors 2 Muslim terminology and world of discourse 3 Fida l Shahid and Islamikaze 4 The doctrine of Islamikaze 5 Friends and foes interpretations and misinterpretations 6 Champions of Islamikaze their admirers and muted detractors 7 Identifying the enemy domestic and external 8 The Jews Zionism and Israel an evil unto itself 9 The western war against Islamikaze 10 Conclusions and prospects The Late Ottoman Empire and Egypt Elizabeth Shlala,2017-07-31 Law and identification transgressed political boundaries in the nineteenth century Levant Over the course of the century Italo Levantines elite and common exercised a strategy of resilient hybridity whereby an unintentional form of legal imperialism took root in Egypt This book contributes to a vibrant strand of global legal history that places law and other social structures at the heart of competing imperial projects British Ottoman Egyptian and Italian among them Analysis of the Italian consular and mixed court cases and diplomatic records in Egypt and Istanbul reveals the

complexity of shifting identifications and judicial reform in two parts of the interactive and competitive plural legal regime. The rich court records show that binary relational categories fail to capture the complexity of the daily lives of the residents and courts of the late Ottoman empire. Over time and acting in their own self-interests, these actors exploited the plural legal regime. Case studies in both Egypt and Istanbul explore how identification developed as a legal form of property itself. Whereas the classical literature emphasized external state power politics, this book builds upon new work in the field that shows the interaction of external and internal power struggles throughout the region led to assorted forms of confrontation, collaboration, and negotiation in the region. It will be of interest to students, scholars, and readers of Middle East Ottoman and Mediterranean history. It will also appeal to anyone wanting to know more about cultural history in the nineteenth century and the historical roots of contemporary global debates on law, migration, and identities.
