The Palm Springs School: Desert Modernism 1934-1975 Alan Hess,2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town's small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to reflect a region's culture economy and distinctive atmosphere Architects here responded to nature's climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography

Classic Modern Deborah Dietsch, 2000. There is no hotter style today than the cooler-than-cool work of modern designers and architects from the 1940s and 50s. Endlessly inventive and eminently livable mid-century modernism has an optimism and confidence born of postwar abundance and a spirited elegance that appeals powerfully fifty years later. In CLASSIC MODERN, design expert Deborah Dietsch introduces readers to the basic tenets of modern design and explains how the simple yet inspired forms typical of this style were so readily disseminated into mainstream American culture. Filled throughout with enticing examples of mid-century pieces from such timeless designers as Charles and Ray Eames, Eero Saarinen, Arne Jacobsen, and George Nelson, this beautiful book recaptures the excitement of the period's brilliant designs.

The Custom Home Vernon D. Swaback, 2001. Vernon Swaback FAIA is extremely passionate about his craft, and that is very evident in both his words and his own completed work.
