Concept-based Language Instruction Kyoko Masuda, Amy Snyder Ohta, Rie Tsujihara, 2025-01-27 This volume showcases how concept based language instruction C BLI can be effectively integrated into foreign language instruction. C BLI is grounded in the relationship between theory research and practice incorporating visual aids called SCOBAs schemas for a complete orientating basis of action designed to teach accurate scientific concepts. SCOBAs materialize L2 usage based linguistic and cultural concepts to create tools that promote conceptual understanding and internalization. Three overview chapters lay out the book's sociocultural theoretic foundations the role of mediation usage based linguistics and the concept of subjective construal internalization and its role in re mediating the mind for L2 learning and L2 pragmatics teaching and assessment. Subsequent chapters enact praxis via classroom research on C BLI. Each study focuses on a difficult to acquire area of Japanese pragmatics and/or grammar incorporating SCOBAs that teach core concepts. Instruction moves from SCOA mediated interactive lecture to internalization tasks involving languaging to language practice. Each chapter concludes with a section for critical reflection to inform future research and materials design. With its focus on research teaching connections via praxis elucidating the power of linking concept based language instruction with usage based linguistics this book will interest students and scholars of second language acquisition language teaching and learning applied linguistics Japanese and Asian languages.
