Pakistani Pregnant Women Delivery Video:

Practical Guide to Simulation in Delivery Room Emergencies Gilda Cinnella, Renata Beck, Antonio Malvasi, 2023-06-13 In this book the use of hybrid simulation in delivery room emergencies is described and shown. The use of a patient actor combined with a task trainer within the same session substantially improves the training for practical management of intrapartum emergencies in real life, reducing the risk of failure of operative vaginal delivery and of related adverse events including perinatal or maternal complications. Furthermore, simulation with high reality computerized mannequin and scenography of emergency situation can improve technical and manual skills of the participants. For this book and the related videos, a new generation of mannequins suitable for both clinical manoeuvres and ultrasound examination is used to simulate all clinical scenarios of emergency that can happen in the delivery room for both the mother and the child. This unique book is a useful tool for medical students, residents, practicing pediatricians, anesthetists, obstetricians, and all health care professionals working in the delivery room in their ability to deal with critical and emergency situations with safety and good medical practice.

30 Rights of Muslim Women Daisy Khan, 2024-05-21 2025 Nautilus Award Winner Gold Religion. This authoritative go-to publication aims to educate women on how to express their rights within Islam. Perfect for enabling activists to integrate an egalitarian Islamic belief system into their movements. The most effective means of improving Muslim women's lives is connecting them to their deeply held beliefs that affirm human dignity and gender equality at the core of the Islamic faith. But Muslim women lack this information that enlightens and vouches for their sacred rights, and they have no accessible tools that encourage faith-based activism consistent with the Islamic faith. To protect them from being misrepresented by or outside their communities, there is a need to provide pre-packaged, easy-to-understand literacy tools to women so they can lead lives of choice, dignity, and opportunity. 30 Rights of Muslim Women aims to fill this gap.

From Preconception to Postpartum Stavros Sifakis, Nikos Vrachnis, 2012-03-23 Obstetrics is evolving rapidly and finds itself today at the forefront of numerous developments. Providing selected updates on contemporary issues of basic research and clinical practice as well as dealing with preconception, pregnancy, labor, and postpartum, the present book guides the reader through the tough and complex decisions in the clinical management. Furthermore, it deepens the scientific understanding in the pathogenetic mechanisms implicated in pregnancy and motivates further research by providing evidence of the current knowledge and future perspectives in this field. Written by an international panel of distinguished authors who have produced stimulating articles, the multidisciplinary readers will find this book a valuable tool in the understanding of the maternal, placental, and fetal interactions which are crucial for a successful pregnancy outcome.
