Paintings and the Past Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to

philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history **Beauty in the City** Robert A. Slayton, 2017-06-21 Gold Medalist 2018 Independent Publisher Book Awards in the US Northeast Best Regional Non Fiction Category Finalist for the 2017 Foreword INDIES Book of the Year Award in the Regional category Silver Winner 2017 Foreword INDIES Book of the Year Awards in the History category At the beginning of the twentieth century the Ashcan School of Art blazed onto the art scene introducing a revolutionary vision of New York City In contrast to the elite artists who painted the upper class bedecked in finery in front of magnificent structures or the progressive reformers who photographed the city as a slum hopeless and full of despair the Ashcan School held the unique belief that the industrial working class city was a fit subject for great art In *Beauty in the City* Robert A Slayton illustrates how these artists portrayed the working classes with respect and gloried in the drama of the subways and excavation sites the office towers and immigrant housing Their art captured the emerging metropolis in all its facets with its potent machinery and its class ethnic and gender issues By exposing the realities of this new modern America through their art expressed in what they chose to draw not in how they drew it they created one of the great American art forms *The Pensive Image* Hanneke Grootenboer, 2021-02-16 Grootenboer considers painting as a form of thinking in itself rather than a subject of philosophical and interpretive thought While the philosophical dimension of painting has long been discussed a clear case for painting as a form of visual thinking has yet to be made Traditionally vanitas still life paintings are considered to raise ontological issues while landscapes direct the mind toward introspection Grootenboer moves beyond these considerations to focus on what remains unspoken in painting the implicit and inexpressible that manifests in a quality she calls pensiveness Different from self aware or actively desiring images pensive images are speculative pointing beyond interpretation An alternative pictorial category pensive images stir us away from interpretation and toward a state of suspension where thinking through and with the image can start In fluid prose Grootenboer explores various modalities of visual thinking as the location where thought should be found as a refuge enabling reflection and as an encounter that provokes thought Through these considerations she demonstrates that artworks serve as models for thought as much as they act as instruments through which thinking can take place Starting from the premise that painting is itself a type of thinking *The Pensive Image* argues that art is capable of forming thoughts and shaping concepts in visual terms **For America** Jeremiah William McCarthy, Diana Thompson, 2019-01-01 Featuring paintings by American icons like Winslow Homer and Thomas Eakins this book illustrates the ways American artists have viewed themselves their peers and their painted worlds over 200 years **Interior, Environment, and Related Agencies Appropriations for 2017** United States. deeply personal account of his journey learning how to paint for the first time and a meditation on the power of art in times of crisis Nicholson Baker wanted to learn how to paint In 2019 after years of researching and writing about secret and often horrible government programs for his book *Baseless My Search for Secrets in the Ruins of the Freedom of Information Act* he was wiped out Having been steeped for so long in the history of war violence and conspiracy the world had lost some of its brightness Photography had scratched a creative itch for years but now Baker was desperate to squeeze more out of what he saw he wanted to live slowly through the snatches of life he was recording in photos Maybe he thought he could learn to paint The idea consumed him but he was nagged by an even more debilitating doubt What if he failed Finding a Likeness is Baker s record of the years he worked to improve his artistic skills beginning with his first humble attempts to set paintbrush to paper Driven by a natural curiosity and a strong desire to paint faces clouds and landscapes that actually resemble faces clouds and landscapes he attends classes from local artists watches YouTube tutorials and seeks out master painters from the past and present in the hopes of uncovering their secrets In his inimitable voice Baker recounts the highs and lows of the creative process reflects on memories of growing up as the son of two painters and learns what it means to really see Filled with Baker s own art as well as the work of artists from around the world Finding a Likeness is a tender and deeply felt testimony to taking a step back and going back to basics Baker improves dramatically in his craft but as he considers what it means to try fail and try again he discovers far more than what it takes to paint a cloud rather he shows us how to bear witness to the world to the good and the bad and to do it all justice with paper and ink
