Preparing For Power Peter W. Cookson Jr, Caroline Hodges Persell, 1987-09-30 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife

Preparing for Power Peter Cookson (W., Jr), 1985

The Best of the Best Rubén A. Gaztambide-Fernández, 2010-01-30 For two years Rub n Gaztambide Fern ndez shared the life of what he calls the Weston School an elite New England boarding school Vividly describing the pastoral landscape and graceful buildings the rich variety of classes and activities and the official and unofficial rules that define the school The Best of the Best reveals a small world of deeply ambitious intensely pressured students For Gaztambide Fern ndez Weston is daunting yet strikingly bucolic inspiring but frustratingly incurious and sometimes especially for young women a gilded cage for a gilded age

Elite Schools in Globalising Circumstances Jane Kenway, Cameron McCarthy, 2017-10-02 Elite Schools in Globalizing Circumstances foregrounds the richly theoretical and empirically based work of an international cast of scholars seeking to break out of the confines of the methodological nationalism that now governs so much of contemporary scholarship on schooling Based on a 5 year extended global ethnography of elite schools in nine different countries countries defined by colonial pasts linked to England the contributors make a powerful case for the rethinking of elite schools and elite class formation theory in light of contemporary processes of globalization and transnational change Prestigious high status schools have long been seen as critical institutional vehicles directly contributing to the societal processes of elite selection and reproduction This book asserts that much has changed and that these schools can no longer rest on their past laurels and accomplishments Instead they must re cast their heritages and tradition in order to navigate the new globally competitive educational field enabling them to succeed in a world in which the globalization of educational markets the global ambitions and imaginations of school youth and the emergence of new powerful players peddling entrepreneurial models of curriculum and education have placed contemporary schooling under tremendous pressure This insightful and though provoking volume provides a well researched perspective on the nature of contemporary schooling in the globalizing era This book was originally published as a special issue of Globalisation Societies and Education

Educating Elites Adam Howard, Rubén A. Gaztambide-Fernández, 2010-10-16 The gaze of educational researchers has traditionally been turned down toward the experiences of communities deemed at risk presumably with the purpose of improving their plight Indeed theorizing about

the relationship between education culture and society has typically emerged from the study of poor and marginalized groups in public schools Seldom have educational researchers considered class privilege and educational advantage in their attempts at understanding inequality and fomenting social justice This collection of groundbreaking studies breaks with this tradition by shifting the gaze of inquiry up toward the experiences of privilege in educational environments characterized by wealth and the abundance of material resources This edited volume brings together established and emerging scholars in education and the social sciences working critically to interrogate a diversity of educational environments serving the interests of influential groups both within and beyond schools The authors investigate the power relations that underlie various contexts of class privilege They shed light into the ways in which the success of a few relates to the failure of many

The Sociology of Higher Education Miriam David, Rajani Naidoo, 2013-09-13 The Sociology of Higher Education Reproduction Transformation and Change in a Global Era provides an exciting and conceptually rich approach to the sociology of higher education It offers innovative perspectives on the future of universities within the new and emerging research sub field of the sociology of global higher education The twenty first century has witnessed wide ranging structural and ideological transformations in higher education which have created both a sense of opportunity as well as crisis and loss in the urgent debates around the legitimate roles of the university in the 21st century The chapters represent a diverse and vibrant field illustrating a sociological imagination and a dynamic engagement with the key challenges facing higher education and confirming continuing inequalities through internationalisation This book is comprised of a broad selection of articles originally published in the British Journal of Sociology of Education Schooling Students Placed at Risk Mavis G. Sanders, 2013-06-17 Continues and expands the intellectual exchange among researchers policy makers practitioners and concerned citizens on factors influencing the achievement of poor and minority youth specifically students in middle and high schools

Apple, Hall, David, 2017-03-08 Just what is the role of corporate elites in contemporary reforms of public universities and schools Providing fresh perspectives on matters of governance and vibrant case studies on particular facets of education provision such as curriculum teaching and professional practices this book brings together contributions from the United States Argentina Australia England Indonesia and Singapore to explore how corporate elites are increasingly influencing public education policy and service delivery locally nationally and across the world Chapters by leading scholars like Patricia Burch Tanya Fitzgerald Ken Saltman and John Smyth reveal the impact elite political and professional networks and organizations are having on opportunity access and outcomes **Blacks in the White Elite** Richard L. Zweigenhaft, G. William Domhoff, 2003-08-01 This extensively revised edition of Blacks in the White Establishment adds fifteen years to the life stories of the African Americans whose opportunities were dramatically changed by a nationally prominent educational opportunity program that provided scholarships for disadvantaged people of color to attend the same elite boarding schools that educate

the children of wealthy white Americans Beyond tracing the individuals into middle age and expanding coverage of their careers with special attention to experiences in the corporate world a new chapter on their children s education and early careers gives the new edition a poignant and unusual intergenerational perspective Blacks in the White Elite shows why America is at a crucial juncture in relations between blacks and whites when advances made since the Civil Rights Movement could either continue or retrench depending on the decisions made by our governments communities and schools The voices of African Americans heard in this book bring home for the reader the everyday impact of national policy issues and debates on race and class in America
