Presidential Greatness:

Presidential Greatness Marc Landy, Sidney M. Milkis, 2000-03-01 When a new president is elected in November someone will be called to greatness But it remains to be seen whether that call will be answered In the wake of the Clinton scandal the upcoming election presents an opportunity for candidates and citizens alike to reaffirm their belief that the office of the president demands greatness But Marc Landy and Sidney Milkis suspect that the public will be disappointed once again because the demand for greatness far exceeds the supply In fact they claim that we have had no great presidents in the last half of this century In this provocative new book they explain why Landy and Milkis look to the past to show how five presidents Washington Jefferson Jackson Lincoln and Franklin Roosevelt set the standards for presidential leadership and achievement These were men who left genuine legacies whose vision expanded the office of the presidency as they inaugurated momentous and far reaching change They were leaders who knew how to reconcile innovation with constitutional tradition and were able to both educate the people about their agendas and win their allegiance They were also great builders and leaders of their parties amid times of political realignment Searching for common threads in these five presidencies Landy and Milkis enable us to better understand both the possibilities and the limitations of the office They show how presidents after FDR have never risen to true greatness not even Lyndon Johnson an overreacher whose Great Society was a failed revolution or Ronald Reagan an underachiever whose conservative revolution never fully got under way Our greatest presidents they argue sought to profoundly change the nature of the regimes they inherited and had the luck to assume office under conditions that allowed such renovation today s leaders have lacked either the ambition the opportunity or both Perhaps the authors observe the older our country gets the harder greatness is to come by Our next great president might be sworn in next year but he or she will face a daunting task in matching the stature of past leaders Landy and Milkis s book is an evenhanded assessment of our national icons that reestablishes our understanding of presidential greatness and demonstrates the importance and reality of inspired democratic leadership

Dilemmas of Presidential Leadership Richard Ellis, Aaron B. Wildavsky, 1989-01-01 *Dilemmas of Presidential Leadership* challenges the widely accepted distinction between traditional and modern presidencies a dichotomy by which political science has justified excluding from its domain of inquiry all presidents preceding Franklin Roosevelt Rather than divide history into two mutually exclusive eras Richard Ellis and Aaron Wildavsky divide the world into three sorts of people egalitarians individualists and hierarchs All presidents the authors contend must manage the competition between these rival political cultures It is this commonality which lays the basis for comparing presidents across time To summarize and simplify the book addresses two general categories of presidencies The first is the president with a blend of egalitarian and individualist cultural propensities Spawned by the American revolution this anti authoritarian cultural alliance dominated American politics until it was torn asunder by what Charles Beard has called the second American revolution the Civil War The Jeffersonian and Jacksonian presidents labored

with varying degrees of success to square the exercise of authority with their own and their followers' authoritarian principles. They also were faced with intraparty conflicts that periodically flared up between egalitarian and individualist followers. The president with hierarchical cultural propensities faced different problems. While the precise contours of the dilemma varied, all struggled in one way or another to reconcile their own and their party's preferences with the anti-hierarchical ethos that inhered in the society and the polity. Hierarchical presidents like Washington and Adams were hamstrung by this dilemma as were Whig leaders like Henry Clay and Daniel Webster who aspired to the presidency but never achieved it. Abraham Lincoln's greatness resided in part in his ability to resolve the hierarchy's dilemma. He operated in wartime when he could invoke the commander in chief clause and he created a new cultural combination in which hierarchy was subordinated to individualism. This suggests the author's view was a key to his greatness. The unique dimension of this volume is its use of cultural theory to explain presidential behavior. It also differs from other books in that it deals with pre-modern presidents who are too often treated as only of antiquarian interest in mainstream political science literature on the presidency. The analysis lays the groundwork for a new basis for comparison of early presidents with modern presidents.

The American Presidency Irwin L. Morris, 2010-08-15. Presidential scholars increasingly turn to science to address the fundamental issues in the field but undergraduates are rarely taught the skills to do the same. *The American Presidency* introduces students to new insights produced by the scientific study of the presidency and the scientific endeavor itself. After chapters on the scientific study of the presidency and background information on the presidency, the text discusses prominent theories of presidential power. Chapters on presidential elections, the president's relationship with other political actors such as Congress and the Supreme Court, the president's role in foreign and economic policy, and presidential greatness include guided research exercises that provide students with the opportunity to apply the scientific method to empirical questions with significant theoretical content. *The American Presidency* provides students with the opportunity to learn about the presidency and enables them to draw their own reasoned conclusions about the nature of presidential power.

Encyclopedia of the American Presidency, Fourth Edition Michael Genovese, 2021-04-01. Praise for the first edition: "An altogether excellent introduction to the study of the presidency of the United States. Library Journal entries are well written, an excellent addition. American Reference Books Annual: an excellent resource recommended. Booklist: Highly recommended. Choice: The most up-to-date reference of its kind." *Encyclopedia of the American Presidency, Fourth Edition* is the definitive guide to the role of the president from the American Revolution through the present day. Offering a complete account of the presidency in U.S. history, this A to Z encyclopedia will make a great first stop for students and general readers looking for information on the executive branch of the American government. Its comprehensive scope spans the relationship between the executive and the other branches of government, court cases, elections, political opponents, scandals, and more. A valuable resource that provides concise information, *Encyclopedia of the American Presidency, Fourth Edition* contains more

than 750 entries Entries include Bully pulpit Commander in chief Economic policy Executive privilege Kamala Harris Impeachment Iraq War Thomas Jefferson Middle East Military tribunals New Deal Oval Office Franklin D Roosevelt Situation room Donald Trump Veto power War powers Watergate White House and more The Development of the American Presidency Richard J. Ellis, 2015-06-26 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding beyond the current newspaper headlines The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage this text looks at how the presidency has evolved in relation to the public to Congress to the Executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change All the while Ellis illustrates the institutional relationships and tensions through stories about particular individuals and specific political conflicts Ellis s own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts A companion website not only acts as a further resources base directing students to primary documents newspapers and data sources but also presents interactive timelines and practice quizzes to help students master the book s lessons The second edition a new chapter on unilateral powers that brings greater attention to domestic policymaking

The Limits of Constitutional Democracy Jeffrey K. Tulis, 2010-11-14 Constitutional democracy is at once a flourishing idea filled with optimism and promise and an enterprise fraught with limitations Uncovering the reasons for this ambivalence this book looks at the difficulties of constitutional democracy and reexamines fundamental questions What is constitutional democracy When does it succeed or fail Can constitutional democracies conduct war Can they preserve their values and institutions while addressing new forms of global interdependence The authors gathered here interrogate constitutional democracy s meaning in order to illuminate its future The book examines key themes the issues of constitutional failure the problem of emergency power and whether constitutions should be suspended when emergencies arise the dilemmas faced when constitutions provide and restrict executive power during wartime and whether constitutions can adapt to such globalization challenges as immigration religious resurgence and nuclear arms proliferation In addition to the editors the contributors are Sotirios Barber Joseph Bessette Mark Brandon Daniel Deudney Christopher Eisgruber James Fleming William Harris II Ran Hirschl Gary Jacobsohn Benjamin Kleinerman Jan Werner Müller Kim Scheppele Rogers Smith Adrian Vermeule and Mariah Zeisberg **The American Pageant Revisited: Recollections of a Stanford Historian** Thomas Andrew Bailey, 1982 **Goede leiders zweven niet** Harry Garretsen, Janka Stoker, 2018-10-17 In Goede leiders zweven niet

leggen onderzoekers Janka Stoker en Harry Garretsen de fundamenteën van effectief leiderschap in organisaties en de maatschappij bloot. Tegeltjeswijsheden stappenplannen en vooral wijsheid achteraf over leiderschap wordt met veel stelligheid geschreven en gesproken. Maar wat zijn nu werkelijk de factoren die maken dat een leider invloed uitoefent op zijn of haar omgeving? Stoker en Garretsen gaan in dit boek in op de vraag hoe effectief leiderschap eruitziet. Met verwijzing naar politiek leiders als Trump, Merkel, Rutte en Abou Taleb, maar ook CEO's als Elon Musk en Herta en Paul Amirian, onderbouwen ze hun claim dat goede leiders vooral niet zweven, ze gebruiken geen vage concepten en ze staan niet los van hun omgeving. Ook gaan de auteurs in op het belang van het middenkader en zelfs op de robot als mogelijke baas. Dit boek is onmisbaar voor managers en politiek leiders die in de spiegel durven kijken en echt verschil willen maken.

Perspectives on Presidential Leadership Michael Patrick Cullinane, Clare Frances Elliott, 2014-02-18. In 2011 Barack Obama invited ten distinguished biographers to the White House to ask them one question: which past American president should I emulate? This was not the first time Obama asked scholars this, but the answer he received would differ as presidential legacies waxed and waned. In 2008 Obama chose Lincoln, in 2009 Reagan, and in 2010 Theodore Roosevelt. *Perspectives on Presidential Leadership* is an examination of presidential legacy and in particular an analysis of the first ever UK ranking of American presidents which took place in 2011. In thirteen chapters, thirteen individual presidential administrations are assessed. Some presidents have been considered a success, others a failure; both types are featured in these thirteen case studies in a measured attempt to understand how the perception of presidential leadership evolves, shifts and contorts across three centuries of American politics. The case studies also derive from the expertise of the collected British, Irish and Canadian authors, all of whom are leading scholars in their fields and many of which took part in the 2011 survey. At a time when understanding presidential legacy is in high demand, this book offers a unique international perspective. Through extended commentary and interdisciplinary study of the UK perspective, it provides groundbreaking research.

The Development of the American Presidency Richard Ellis, 2022-05-02. A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present. This developmental lens, analyzing how historical turns have shaped the modern institution, allows for a richer, more nuanced understanding. *The Development of the American Presidency* pays great attention to that historical weight but is organized by the topics and concepts relevant to political science: with the constitutional origins and political development of the presidency its central focus. Through comprehensive and in-depth coverage, Richard J. Ellis looks at how the presidency has evolved in relation to the public, to Congress, to the executive branch and to the law, showing at every step how different aspects of the presidency have followed distinct trajectories of change. Each chapter promotes active learning, beginning with a narrative account of some illustrative puzzle that brings to life a central concept. A wealth of photos, figures and tables allow for the visual presentations of concepts. New to the Fourth Edition: Explicit and expanded attention to the role of norms in shaping and constraining presidential power, with special

focus on Trump's norm breaking and Biden's efforts to shore up norms Enhanced focus on the prospects for institutional reform including in the electoral college presidential relations with Congress war powers and the selection of Supreme Court justices A full reckoning with the Trump presidency and its significance for the future of American democracy presidential rhetoric the unilateral executive and the administrative state Coverage of the first year of Biden's presidency including presidential rhetoric relations with Congress and the bureaucracy use of the war powers and unilateral directives Comprehensive updating of debates about the removal power including the Supreme Court cases of *Seila Law v CFPB* and *Collins v Yellen* In depth exploration of the impact of partisan polarization on the legislative presidency and effective governance Analysis of the 2020 election and its aftermath Expanded discussion of impeachment to incorporate Trump's two impeachments Examination of presidential emergency powers with special attention to Trump's border wall declaration Review of Biden's and Trump's impact on the judiciary Assessment of Biden's and Trump's place in political time

Eventually, you will no question discover a extra experience and expertise by spending more cash. still when? attain you believe that you require to acquire those every needs bearing in mind having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to understand even more nearly the globe, experience, some places, later than history, amusement, and a lot more?

It is your utterly own time to accomplishment reviewing habit. in the middle of guides you could enjoy now is **Presidential Greatness** below.
