Celebrity and Mediated Social Connections Neil M. Alperstein, 2019-05-16 *Celebrity and Mediated Social Connections* is a critical examination of the multiple realities of the mediated culture we traverse extending from our imaginary inner worlds to the imagined communities of digital media Chapters explore the dialogic at work when we connect with celebrities and internalize aspects of their personas due to the various social roles they serve within our everyday lives What might begin as strong identification and internalization within our imaginary worlds in this digital age sometimes seeps out as we connect to celebrities their fans friends and followers in ways that were not formerly possible The book contains topics that range from the degradation of micro celebrities the role of celebrities in promoting prescription drugs and their role in contemporary social movements The common thread that runs through the book presents a mediated world that paradoxically allows if not encourages people to daydream engage in stream of consciousness thinking and fantasize about celebrities all while concurrently compelling us to engage in a digitally based objective world The possibility of interaction on and through digital media intensifies the emotional connection between celebrity and fan The more personal details one

gives up the closer we feel we become digital intimacy based on the excessive self Digital media entice us to engage and remain tethered to technology staying continuously connected so as not to miss the latest post or meme To suggest we should build a proverbial wall between the two imaginary and objective worlds runs counter to the reality of an always on always connected culture in which we presently live

(Inter)Facing Death Sam Han, 2019-10-16 In modern times death is understood to have undergone a transformation not unlike religion Whereas in the past it was out in the open it now resides mostly in specialized spaces of sequestration funeral homes hospitals and other medical facilities A

mainstay in so called traditional societies in the form of ritual practices death was usually messy but meaningful with the questions of what happens to the dead or where they go lying at the heart of traditional culture and religion In modernity however we are said to have effectively sanitized it embalmed it and packaged it but it seems that death is back In the current era marked by economic political and social uncertainty we see it on television on the Internet we see it almost everywhere Inter Facing Death analyzes the nexus of death and digital culture in the contemporary moment in the context of recent developments in social cultural and political theory It argues that death today can be thought of as interfaced that is mediated and expressed in various aspects of contemporary life rather than put to the side or overcome as many narratives of modernity have suggested Employing concepts from anthropology sociology media studies and communications Inter Facing Death examines diverse phenomena where death and digital culture meet including art online suicide pacts the mourning of celebrity deaths terrorist beheadings and selfies Providing new lines of thinking about one of the oldest questions facing the human and social sciences this book will appeal to scholars and students of social and political theory anthropology sociology and cultural and media studies with interests in death

Studies Of China And Chineseness Since The Cultural Revolution - Volume 1: Reinterpreting Ideologies And Ideological Reinterpretations Chih-yu Shih, Swaran Singh, Reena Marwah, 2022-11-29 Studies of China and Chineseness since the Cultural Revolution Volume 2 Micro Intellectual History through De central Lenses Why have the

influences of the Great Proletarian Cultural Revolution roughly 1966 1976 in contemporary China been so pervasive profound and long lasting This book posits that the Revolution challenged everyone to decide how they can and should be themselves Even scholars who study the Cultural Revolution from a presumably external vantage point must end up with an ideological position relative to whom they study This amounts to a focused curiosity toward the Maoist agenda rivaling its alternatives As a result the political lives after the Cultural Revolution remain ulteriorly and ironically Maoist to a ubiquitous extent How then can we cleanse forget neutralize rediscover contextualize realign revitalize or renovate Maoism The authors contend that all must appropriate ideologies for political and analytical purposes and adapt to how others use ideological discourses This book then invites its readers to re examine ideology contexts for people to appreciate how they acquire their roles and duties Those more practiced can even reversely give new meanings to reform nationalism foreign policy or scholarship by shifting between Atheism Maoism Confucianism and Marxism incurring alternative ideological lenses to de legitimize their subject matter **Authenticity as Performativity on Social Media** Allan S. Taylor, 2022-10-11

Authenticity is a highly prized concept on social media but given the history of the term has it been adequately scrutinised This book provides an alternative definition of authentic social media practice and suggests that rather than being an achievable ideal authenticity reveals itself as an unrepeatable temporary interval Applying a post structural lens of performativity Taylor analyses the resurgence of the authentic as a cultural trend and argues that the professionalisation of social media has given rise to a neoliberal authentic that equates productivity with self actualisation questioning whether society should present this as a cultural ideal Using a new critical framework Taylor recontextualises authenticity in a variety of social media practices This includes authentic self representation authentic influence and its effect in influencer culture as well as meme production as an attempt to find authenticity Part reader part manifesto the book asks readers to reappraise authenticity and provides a working definition for future practice
