The background of the cover is a classical painting. In the center, a woman in a voluminous silver gown with a dark bodice stands, gesturing with her right hand. To her left, a cherub in a red tunic holds a tray of flowers. To her right, another woman in a dark, ornate dress and turban is seated. The setting appears to be a grand interior or garden with classical architecture and statues.

Princesse of Versailles Charles W. Elliott,1992 Biography of the grandniece of Louis XIV and wife of the heir apparent to the throne of France **First Lady of Versailles** Lucy Norton,1978 Biografie van Marie Ad la de de Savoie 1685 1712 vroeggestorven echtgenote van de eveneens vroeggestorven Franse troonopvolger Louis duc de Bourgogne en moeder van de latere koning Louis XV **Decadence, Radicalism, and the Early Modern French Nobility** Chad Denton,2016-12-01 The image of the debauched French aristocrat of the seventeenth and eighteenth centuries is one that still has power over the international public imagination from the unending fascination with the Marquis de Sade to the successes of the film *Ridicule* Drawing on memoirs letters popular songs and pamphlets and political treatises *The Enlightened and Depraved* *Decadence Radicalism and the Early Modern French Nobility* traces the origins of this powerful stereotype from between the reign of Louis XIV and the Terror of the French Revolution The decadent and enlightened noble of early modern France the libertine was born in a push to transform the nobility from a warrior caste into an intelligentsia Education itself had become a power through which the privileged could set themselves free from old social and religious restraints However by the late eighteenth century the libertine noble was already falling under attack by changing attitudes toward gender an emphasis on economic utility over courtly service and ironically the very revolutionary forces that the enlightened nobility of the court and Paris helped awaken In the end the libertine nobility would not survive the French Revolution but the basic idea of knowledge as a liberating force would endure in modernity divorced from a single class **Claude III Audran, Arbiter of the French Arabesque** Barbara Laux,2025-10-01 Claude III Audran Arbiter of the French Arabesque is the first substantial biographical study of Claude III Audran a late 17th and early 18th century master of ornament and a proponent of cutting edge design who took inspiration from contemporary sources This work investigates Audran s accomplishments and the factors that impacted the longevity and arc of his successful career taking into consideration the contextual variables that influenced and shaped his work Audran s achievements bridge an important period with the eclipse of the Guild Ma trise and the rise of the Acad mie royale Audran subcontracted young artists such as Watteau Lancret and Desportes in order to circumvent restrictions on guild practice enacted by the crown Looking at his commissions not only reveals the elite taste of his patrons including Louis XIV but also Audran s ability to use elements from popular culture to animate his arabesques which created hallmarks of rococo interior design **Desperate Measures** Claire Fontijn,2006-10-19 One of the most fascinating figures of seventeenth century music composer and singer Antonia Padoani Bembo c 1640 c 1720 was active in both Venice and Paris Her work provides a unique cross cultural window into the rich musical cultures of these cities yet owing to her clandestine existence in France for almost three centuries Bembo s life was shrouded in mystery In this first ever biography Clare Fontijn unveils the enthralling and surprising story of a remarkable woman who moved in the musical literary and artistic circles of these European cultural centers **Liber Amicorum John Steele** ,1997 John Steele was

educated at Victoria University of Wellington and at Cambridge University where he was a student of Thurston Dart Steele was the first New Zealander to become a professional musicologist and the first to achieve international reputé largely for his work on Italian music of the late sixteenth and early seventeenth centuries This volume has been undertaken by the New Zealand Musicological Society as a tribute to its most distinguished member on the occasion of his retirement from Otago University The main focus of the collection is the music of the sixteenth to eighteenth centuries

Territorial Ambitions and the Gardens of Versailles Chandra Mukerji, 1997-09-25 In seventeenth century France land took on new importance for the practice of politics and rituals of court life In her major new book Chandra Mukerji highlights the connections between the two seemingly disparate activities of engineering and garden design She shows how at Versailles in particular the royal park showcased French skills in using nature and art to design a distinctively French landscape and create a naturalized political territoriality She challenges the association of state power with social and legal structures alone and demonstrates the importance for Louis XIV and his state of a controlled physical site a demarcated French territory within the wider European geo political continent
