Principia Semiotica Aux Sources Sens:

Investigations Into the Phenomenology and the Ontology of the Work of Art Peer F. Bundgaard, Frederik Stjernfelt, 2015-06-22 This book investigates the nature of aesthetic experience and aesthetic objects Written by leading philosophers psychologists literary scholars and semioticians the book addresses two intertwined issues The first is related to the phenomenology of aesthetic experience The understanding of how human beings respond to artworks how we process linguistic or visual information and what properties in artworks trigger aesthetic experiences The examination of the properties of aesthetic experience reveals essential aspects of our perceptual cognitive and semiotic capacities The second issue studied in this volume is related to the ontology of the work of art Written or visual artworks are a specific type of objects containing particular kinds of representation which elicit a particular kind of experience The research question explored is What properties in artful objects trigger this type of experience and what characterizes representation in written and visual artworks The volume sets the scene for state of the art inquiries in the intersection between the psychology and ontology of art The investigations of the relation between the properties of artworks and the characteristics of aesthetic experience increase our insight into what art is In addition they shed light on essential properties of human meaning making in general

The Music of Meaning Per Aage Brandt, Ulf Cronquist, 2019-08-30 This book is about meaning in music poetry and language it is about signs symbols icons diagrams and more It concerns art and how we communicate how we make sense to each other including the concept of nonsense It is about metaphor and irony It embraces a vast human universe of signification and some of its cognitive machines of meaning making a complex and diverse unfolding of the expressive human mind These 24 essays study different aspects of the way we signify present recent research and models of such processes and discuss the often intricate problems of understanding the relations between expression and thought In evolution music may have preceded the language of words and music remains indirectly present in every temporal unfolding of bodily affective playful meaningful activity We are immersed in meaning and have to listen to it since it constitutes the semiotic reality structuring the world as we experience it

Morphodynamics in Aesthetics Stefania Caliendo, 2019-12-12 This book deals with the complexity of art by focusing on the singularity of the work of art Gathering a selection of writings in art theory and semiotics it explores the question of apprehending art from its perceptual aspects to aesthetic comprehension and understanding Theoretical enquiries focus in particular on the dynamics of the perception of forms the semiotic value of colour the aesthetic phenomenon of empathy the function of vision in relation to other senses and its faculty to lead in a substantial way to the embodiment of sense These theoretical points are constantly observed with reference to the analysis of works of art especially from the beginning of the modern era when a renovated psychophysical approach oriented the evolution of contemporary aesthetics Research into art theories sheds light on how differentials in topologic positions dimensions relationships and tones contribute to the arising of forms and colours in perception and affect the

perceiver The essays presented address in different ways the emergence of sense by conceiving it as deeply anchored to the dynamics of perception in addition to the cognitive disposition and knowledge regardless of whether or not the subject artist or beholder is aware of these processes Through in depth analyses identifying to what extent the aesthetic moment builds on perceptual and semiotic processes works of art are revealed to be singularities reflecting the correlation with

morphodynamics in the sciences **Ecosystems Knowledge** Samuel Szoniecky,2018-05-24 To analyze complex situations we use everyday analogies that allow us to invest in an unknown domain knowledge we have acquired in a known field In this work the author proposes a modeling and analysis method that uses the analogy of the ecosystem to embrace the complexity of an area of knowledge After a history of the ecosystem concept and these derivatives nature ecology environment from antiquity to the present the analysis method based on the modeling of socio semantic ontologies is presented followed by practical examples of this approach in the areas of software development digital humanities Big Data and more generally in the area of complex analysis The Routledge Handbook of Nonprofit Communication Gisela Gonçalves,Evandro

Oliveira,2022-10-12 This handbook brings together multidisciplinary and internationally diverse contributors to provide an overview of theory research and practice in the nonprofit and nongovernmental organization NGO communication field It is structured in four main parts the first introduces metatheoretical and multidisciplinary approaches to the nonprofit sector the second offers distinctive structural approaches to communication and their models of reputation marketing and communication management the third focuses on nonprofit organizations strategic communications strategies and discourses and the fourth assembles campaigns and case studies of different areas of practice causes and geographies The handbook is essential reading for scholars educators and advanced students in nonprofit and NGO communication within public relations and strategic communication organizational communication sociology management economics marketing and political science as well as a useful reference for leaders and communication professionals in the nonprofit sector **Éléments**
