Non-Legality in International Law Fleur Johns, 2013-01-03 International lawyers typically start with the legal What is a legal as opposed to a political question How should international law adapt to the unforeseen These are the routes by which international lawyers typically reason This book begins instead with the non legal In a series of case studies Fleur Johns examines what international lawyers cast outside or against law as extra legal illegal pre legal or otherwise non legal and how this comes to shape political possibility Non legality is not merely the remainder of regulatory action It is a key structuring device of contemporary global order Constructions of non legality are pivotal to debate in areas ranging from torture to foreign investment and from climate change to natural disaster relief Understandings of non legality inform what international lawyers today do and what they refrain from doing Tracing and potentially reimagining the non legal in international legal work is accordingly both vital and pressing
