Put Your House On A Diet Put Your House On A Diet:

Put Your House on a Diet Sheree Byofsky, Rita Rosenkranz, 2005-09-03 Presents strategies on how to overcome home clutter challenges in a room by room format sharing dozens of inexpensive easy to implement suggestions on how to eliminate unwanted items and change clutter accumulating behaviors Original

Put Your Life on a Diet Gregory Johnson, 2008 The author lives in a 140 square foot home that doesn't have many of the appliances usually taken for granted as necessary For most of his commuting he walks or uses a bicycle his home is off the electrical and water grids Most people would say this is an impossible way to live but he considers his transition to a simpler life has made him happier and healthier than he has ever been After living in his compact home for several years he has learned that with the smaller living space his freedom has expanded both in terms of finances and free time bills and maintenance are so much lower than the financial and time costs of the average home Living in a smaller space also limits purchases of things thus saving money He still uses around two thousand square feet of living space as before the difference is that the other space is shared with others his office the gym the laundromat the restaurant and other spaces and that space is no longer his responsibility to maintain So not only is he contributing to his community but his overheads and responsibilities are significantly reduced
