Public Accountability Designs Dilemmas And Experiences Cambridge Studies In Law And Society:

Public Accountability Michael D. Dowdle, 2006-07-06 The most comprehensive survey to date of how different organizations hold persons acting in the public interest to account

Regulation and Criminal Justice Hannah Quirk, Toby Seddon, Graham Smith, 2010-12-23 While regulatory institutions and strategies have been the subject of increasing academic attention there has been limited application of regulatory theories to criminal justice scholarship This collection of essays from a range of outstanding international scholars adopts a critical inter disciplinary approach providing an innovative application of regulatory theory to the practice of criminal justice and offering suggestions for further research Part I explores the aims and values of criminal justice and other regulatory networks and the synergies and tensions between these fields Part II examines criminal justice as a regulatory force to control deviant and anti social behaviour and Part III examines the regulation and oversight of criminal justice through the operation of prison inspectorates and explores notions of responsive justice

The Oxford Handbook of Law and Politics Keith E. Whittington, R. Daniel Kelemen, Gregory A. Caldeira, 2010-06-10 The Oxford Handbooks of Political Science are the essential guide to the state of political science today With engaging contributions from major international scholars The Oxford Handbook of Law and Politics provides the key point of reference for anyone working on the interception between law and political science

Global Environmental Governance and the Accountability Trap Susan Park, Teresa Kramarz, 2019-02-19 An examination of whether accountability mechanisms in global environmental governance that focus on monitoring and enforcement necessarily lead to better governance and better environmental outcomes The rapid development of global environmental governance has been accompanied by questions of accountability Efforts to address what has been called a culture of unaccountability include greater transparency public justification for governance decisions and the establishment of monitoring and enforcement procedures And yet as this volume shows these can lead to an accountability trap a focus on accountability measures rather than improved environmental outcomes Through analyses and case studies the contributors consider how accountability is being used within global environmental governance and if the proliferation of accountability tools enables governance to better address global environmental deterioration Examining public private voluntary and hybrid types of global environmental governance the volume shows that the different governance goals of the various actors shape the accompanying accountability processes These goals from serving constituents to reaping economic benefits determine to whom and for what the actors must account After laying out a theoretical framework for its analyses the book addresses governance in the key areas of climate change biodiversity fisheries and trade and global value chains The contributors find that normative biases shape accountability processes and they explore the potential of feedback mechanisms between institutions and accountability rules for enabling better governance and better environmental outcomes Contributors Graeme Auld Harro van Asselt Cristina Balboa Lieke Brouwer Lorraine Elliott Lars H Gulbrandsen Aarti Gupta Teresa Kramarz Susan

Park Philipp Pattberg William H Schaedla Hamish van der Ven Oscar Widerberg **Restorative Responses to Sexual Violence** Estelle Zinsstag, Marie Keenan, 2017-02-17 Sexual violence in all its forms is a crime for which anecdotal accounts and scholarly reports suggest victims in their great majority do not receive adequate justice or redress The theory and practice of restorative justice is rapidly developing and offers some well argued new avenues for dealings with crime in general It has the potential to be extended to cases of sexual violence and a number of small scale programmes are already underway across the world Restorative Responses to Sexual Violence examines this innovative justice paradigm in more depth in the particular context of sexual trauma and violence in order to establish the empirical realities of restorative justice approaches in cases of sexual violence and considers how such approaches could be developed adequately in the future This book is divided into two parts each representing a key area of research and practice theoretical and conceptual frameworks and justice and therapeutic perspectives This international collection brings together leading expert scholars and practitioners to offer both theoretical and practical perspectives on restorative justice and sexual violence This book will be of interest to researchers in the field of law criminology psychology social science social work and psychotherapy as well as practitioners in the fields of criminal justice restorative justice and sex offender and victim trauma therapies *The Routledge Handbook of International Crime and Justice Studies* Bruce Arrigo, Heather Bersot, 2013-08-15 The Routledge Handbook of International Crime and Justice Studies presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective Guided by the pivotal although vastly under examined role that consumerism politics technology and culture assume in shaping these debates and in organizing these challenges individual chapters probe the global landscape of crime and justice with astonishing clarity and remarkable depth A distinguished collection of experts examine the interdisciplinary field of international crime and justice Their contributions are divided into thematic sections including theory culture and society industries of crime and justice systems of policing law corrections and punishment the criminal enterprise global technologies media crime and culture green criminology political violence public health criminology the political economy of crime and justice All the chapters include full pedagogy and instructional resources for easy referencing or classroom use This Handbook will be useful for students scholars and practitioners of law medicine history economics sociology politics philosophy education public health and social policy

The Exploitation of Intellectual Property Rights Jens Schovsbo, 2023-06-01 This perceptive book focuses on the interplay between the substantive provisions of intellectual property IP rights and the rules of enforcement Featuring contributions from internationally recognised IP scholars the book investigates different methods of ensuring that IP contractual and enforcement practices support the overall goals of the IP system **Constitutionalism beyond Liberalism** Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 Explores the possibilities of constitutionalism from diverse theoretical and comparative perspectives particularly those from outside liberal and Anglo European paradigms *The Case for Gridlock*

Marcus E. Ethridge, 2010-03-30 The Case for Gridlock explains how Progressive ideas about government have led to severe representational problems in the American political system Having rejected the Framers institutional arrangement as sluggish and frustrating Progressives have for over a century worked to circumvent the Madisonian system by establishing policy making power in executive agencies and commissions Ironically the most consequential legacy of Progressivism is an institutional system that became more perfectly and efficiently responsive to the inherently unbalanced organized political power that they lament Drawing on an analysis of administrative law and decades of research on interest groups The Case for Gridlock explores the faulty logic and naive thinking of the Progressive perspective revealing the uncertainties and anomalies in legal doctrine that have emerged as a result of their effort to graft efficient designs onto the gridlock prone system that James Madison and the other Framers left us The problems of interest group liberalism and the accumulation of powerful interests that undermine economic growth and political stability have long been recognized by political scientists and economists The Case for Gridlock argues that these problems are not inevitable and that a solution exists in reasserting the Constitutional Principle as the foundation for the design and operation of U S governmental institutions The public's interests can prevail over those of organized special interests by returning power to the gridlock prone institutional arrangement established in the Constitution

Law after Modernity Sionaidh Douglas-Scott, 2013-04-30 How can we characterise law and legal theory in the twenty first century Law After Modernity argues that we live in an age after Modernity and that legal theory must take account of this fact The book presents a dynamic analysis of law which focusses on the richness and pluralism of law on its historical embeddedness its cultural contingencies as well as acknowledging contemporary law's global and transnational dimensions However Law After Modernity also warns that the complexity fragmentation pluralism and globalisation of contemporary law may all too easily perpetuate injustice In this respect the book departs from many postmodern and pluralist accounts of law Indeed it asserts that the quest for justice becomes a crucial issue for law in the era of legal pluralism and it investigates how it may be achieved The approach is fresh contextual and interdisciplinary and unusually for a legal theory work is illustrated throughout with works of art and visual representations which serve to re enforce the messages of the book

Public Accountability Designs Dilemmas And Experiences Cambridge Studies In Law And Society Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has be evident than ever. They have the capability to inspire, provoke, and ignite change.
