Drinks Cody McDevitt, Sean Enright, 2017-03-20 Pittsburgh s drinking culture is a story of its people vibrant hardworking and innovative During Prohibition the Hill District became a center of jazz speakeasies and creative cocktails In the following decades a group of Cuban bartenders brought the nightlife of Havana to a robust caf culture along Diamond Street Disco clubs gripped the city in the 1970s and a music centered nightlife began to grow in Oakland with such clubs as the Electric Banana Today pioneering mixologists are forging a new and exciting bar revival in the South Side and throughout the city Pull up a stool and join Cody McDevitt and Sean Enright as they trace the history of Steel City drinking along with a host of delicious cocktail recipes Creativity Without Law Kate Darling, Aaron Perzanowski, 2017-02-28 Behind the scenes of the many artists and innovators flourishing beyond the bounds of intellectual property laws Intellectual property law or IP law is based on certain assumptions about creative behavior The case for regulation assumes that creators have a fundamental legal right to prevent copying and without this right they will under invest in new work But this premise fails to fully capture the reality of creative production It ignores the range of powerful non economic motivations that compel creativity and it

overlooks the capacity of creative industries for self governance and innovative social and market responses to appropriation This book reveals the on the ground practices of a range of creators and innovators In doing so it challenges intellectual property orthodoxy by showing that incentives for creative production often exist in the absence of or in disregard for formal legal protections Instead these communities rely on evolving social norms and market responses sensitive to their particular cultural competitive and technological circumstances to ensure creative incentives From tattoo artists to medical researchers Nigerian filmmakers to roller derby players the communities illustrated in this book demonstrate that creativity can thrive without legal incentives and perhaps more strikingly that some creative communities prefer and thrive in environments defined by self regulation rather than legal rules Beyond their value as descriptions of specific industries and communities the accounts collected here help to ground debates over IP policy in the empirical realities of the creative process Their parallels and divergences also highlight the value of rules that are sensitive to the unique mix of conditions and motivations of particular industries and communities rather than the monoculture of uniform regulation of the current IP system

A Dark History of Gin Mike Rendell,2023-01-05 A Dark History of Gin looks at the origins and development of a drink which seems to have a universal and timeless appeal Historian Mike Rendell explores the origins of distilling in the ancient world and considers the how when where and why of the happy marriage between distilled spirits and berries from the juniper bush The book traces the link between gin and the Low Countries Holland and Belgium and looks at how the drink was brought across to England when the Dutch born William of Orange became king From the tragic era of the gin craze in eighteenth century London through to the emergence of the cocktail the book follows the story of gin across the Atlantic to America and the emergence of the mixologist It also follows the growth of the Temperance Movement and the origins of the Prohibition before looking at the period between the First and Second World Wars the cocktail age From there the book looks at the emergence in the twentieth century of craft gins across the globe enabling the drink to enjoy a massive increase in popularity The book is intended as a light hearted look behind the scenes at how Mother s Ruin developed into rather more than just a plain old G T

Buried Beneath the City Nan A. Rothschild,Amanda Sutphin,H. Arthur Bankoff,Jessica Striebel MacLean,2022-09-06 Winner 2023 SAA Book Award Popular Society for American Archaeology Honorable Mention 2024 Felicia A Holton Book Award Archaeological Institute of America Bits and pieces of the lives led long before the age of skyscrapers are scattered throughout New York City found in backyards construction sites street beds and parks Indigenous tools used thousands of years ago wine jugs from a seventeenth century tavern a teapot from Seneca Village the nineteenth century Black settlement displaced by Central Park raspberry seeds sown in backyard Brooklyn gardens these everyday objects are windows into the city s forgotten history Buried Beneath the City uses urban archaeology to retell the history of New York from the deeper layers of the past to the topsoil of recent events The book explores the ever evolving city and the day to day world of its residents through artifacts from the first traces of Indigenous societies more than ten thousand years

ago to the detritus of Dutch and English colonization and through to the burgeoning city's transformation into the modern metropolis. It demonstrates how the archaeological record often goes beyond written history by preserving mundane things, details of everyday life that are beneath the notice of the documentary record. These artifacts reveal the density, diversity, and creativity of a city perpetually tearing up its foundations to rebuild itself. Lavishly illustrated with images of objects excavated in the city, *Buried Beneath the City* is at once an archaeological history of New York City and an introduction to urban archaeology.

Masters of Craft Richard E. Ocejo, 2017-04-24

How educated and culturally savvy young people are transforming traditionally low status manual labor jobs into elite taste making occupations. In today's new economy, in which good jobs are typically knowledge or technology based, many well educated and culturally savvy young men are instead choosing to pursue traditionally low status manual labor occupations as careers. *Masters of Craft* looks at the renaissance of four such trades: bartending, distilling, barbering, and butchering. In this in depth and engaging book, Richard Ocejo takes you into the lives and workplaces of these people to examine how they are transforming these once undesirable jobs into cool and highly specialized upscale occupational niches and in the process complicating our notions about upward and downward mobility through work. He shows how they find meaning in these jobs by enacting a set of cultural repertoires which include technical skills based on a renewed sense of craft and craftsmanship and an ability to understand and communicate that knowledge to others, resulting in a new form of elite taste making. Ocejo describes the paths people take to these jobs, how they learn their chosen trades, how they imbue their work practices with craftsmanship, and how they teach a sense of taste to their consumers. Focusing on cocktail bartenders, craft distillers, upscale men's barbers, and whole animal butcher shop workers in Manhattan, Brooklyn, and upstate New York, *Masters of Craft* provides new insights into the stratification of taste, gentrification, and the evolving labor market in today's postindustrial city.
