Principals Avoiding Lawsuits David

Schimmel,Suzanne Eckes,Matthew Militello,2017-03-20 This book gives principals the tools they need to avoid lawsuits by teaching their staff the information they need to practice preventive law Lawsuits often begin when teachers unintentionally violate students rights such as searching a student s cell phone without reasonable suspicion or failing to follow a student s Individualized Education Program These violations do not occur because teachers intend to break the law They occurred because the vast majority of teachers are not required to learn about the rights and responsibilities of students and teachers in their teacher preparation programs As a result most teachers get their legal information from the law school of the teachers lounge that is from colleagues who are similarly uninformed and misinformed Instead what teachers want and need is an in service program that will provide them with a basic understanding of school law But most busy principals don t have the time knowledge and resources to provide such a program for their staff This book will meet this critical unmet need It provides principals with the resources and lesson plans they need to incorporate school law into their professional development program As a result their teachers will get their information about school law from a reliable source not from the rumors fears and myths of the teachers lounge By empowering their teachers with legal knowledge principals and teachers will avoid lawsuits by becoming partners in the practice of preventive law [Resources in Education](#) ,1995-04
