

MLA style is a commonly used citation and formatting style in academic writing, particularly in the humanities. Here is a guide to MLA style:

1. Formatting:

- Use 12-point font, such as Times New Roman
- Use double spacing throughout your paper
- Use 1-inch margins on all sides
- Include a header with your last name and page number in the top right corner of each page

2. In-text citations:

- Use the author's last name and page number(s) in parentheses at the end of a quote or paraphrase (e.g. (Smith 23))
- If the author's name is already mentioned in the sentence, you only need to include the page number(s) in parentheses at the end of the quote or paraphrase (e.g. According to Smith, the "sky is blue" (23))

3. Works Cited page:

- List all sources cited in alphabetical order by the author's last name
- Use hanging indentation for each citation (i.e. the first line is flush with the left margin and subsequent lines are indented)
- Include the author's name, title of the work, publisher, publication date, and medium of publication (e.g. Print, Web, DVD, etc.) for each citation
- If a source has no author, begin the citation with the title of the work
- If a source has more than one author, list them in the order they appear on the title page

Here is an example of a book citation in MLA style:

Smith, John. *The History of the World*. Random House, 2010.

And here is an example of an article from a website:

Jones, Sarah. "The Benefits of Meditation." *Mindful Living*, 1 May 2022.
www.mindfulliving.com/benefits-meditation.

For more detailed information about MLA style, you can consult the *MLA Handbook for Writers of Research Papers*, which is available in most academic libraries and online.

Bootstrap 4 Quick Start Jacob Lett, 2018-06-22

Want to improve the design of your website or web application without having to write CSS styles from scratch? Learning HTML and CSS is a lot more challenging than it used to be. Responsive web design adds more layers of complexity to design and develop websites. In this book, you will become familiar with the new cards component, setting up the new flexbox grid layout, customizing the look and feel, how to follow the mobile first development workflow, and more. Web designer and developer Jacob Lett has built 100 websites and WordPress themes. Let him show you exactly how to build responsive layouts that look great in every browser and device. He shares what you can't learn from the official documentation: the process of actually building a full layout. This book is focused on the workflow and does not duplicate what you can already find in the official documentation. This book will show you how to reference the documentation and use it effectively in your projects.

BONUS Includes a link to download a free cheat sheets bundle and a 1 hour training video.

Who is this for? You're an absolute beginner and want to become a web developer. You learned HTML and CSS 5-10 years ago but are new to responsive web design basics. You have used Bootstrap before but want to learn new techniques and workflow.

What will I learn? Learn what responsive web design is, the history behind it, and how the Bootstrap 4 frontend framework makes it easier to implement. Learn the web design process and workflow necessary to make a responsive website and application with Bootstrap 4. Learn what's new in Bootstrap 4 with a deep focus on CSS3 Flexbox, Cards, and the responsive grid layout.

What will I build? Responsive Marketing Homepage. Topics covered: responsive images, image cards, parallax background images, Google fonts, carousel, cross fade, and vertical centered text. Bootstrap Admin Dashboard. Topics covered: 100% height sidebar, card deck, FontAwesome icons, responsive charts and tables, and custom navigation tree menu.

How is this training unique? Learn by doing as you build two professional responsive layouts, examples step by step.
