PREFACE

"The Seafarer," an anonymous poem of uncertain date, was found in the so-called Exeter Book, one of the four important collections of Anglo-Saxon poetry that have survived. The poem is *gnomic* and *elegiac*. The speaker of the poem, an old sailor, speaks of the terror and the wonder he feels for the sea.

The poem conjures up what going to sea in an open, high-prooved ship must have been like in Anglo-Saxon days. The Irish Sea and the North Sea waters were very different

Seafarer Study Guide Answers:

The Seafarer's Mind Martin Otto, 2020-05-19 The Seafarer's Mind is a wonderful resource for seafarers. The book is rich in narrative and case studies and covers a wide range of issues and challenges facing sailors on the high seas. A hard hitting account which unpacks the realities of a modern version of indentured labour, the author provides hope in the often harsh world of seafaring. This is a practical guide to living in isolating and confined situations where temptations abound and moral compasses are often abandoned. Martin Otto is the world's leader in serving seafarers through his international mission work. He is to be commended for being God's advocate in such an insightful humble and practical manner. This book will become a widely read text and is sure to become a key reference for all seafarers seeking to live a Godly life in an often harsh and unforgiving environment. I recommend it wholeheartedly. Professor Ross Dowling AM Global Cruise Ship Lecturer Perth Australia

Connecting People to Their Oceans: Issues and Options for Effective Ocean Literacy Angel Borja, Francesca Santoro, Gail Scowcroft, Stephen Fletcher, Pierre Strosser, 2020-03-25 While there is growing evidence of the importance of marine ecosystems for our societies, evidence shows also that pressures from human activities on these ecosystems are increasing, putting the health of marine ecosystems at stake worldwide. Hence Blue Economy is becoming an important component of future socio-economic development strategies. e.g. this is called Blue Growth in Europe that eventually can result in increasing pressures at sea and despite the current regulatory framework in particular with the Oceans Act in USA or Canada and the Marine Strategy Framework Directive in Europe it is likely that this situation will continue in the future. Ensuring all those connected to the sea directly or indirectly gain a better understanding of the importance of the seas, the human-sea interactions and opportunities to act better and reduce impacts from human pressures is central to Ocean Literacy (OL). Receiving increasing attention in Europe and USA, OL is a challenge for all parts of society: educators, the role OL could play in interaction with innovation, regulation, economic incentive, social norms to support human capital development as key component of sustainable growth and 3 pre-conditions for effective OL for different sectors and target groups. Questions relevant to OL include: Which knowledge produced by whom to share and how? Who to target and how to effectively reach those targeted? How to design OL initiatives including by mobilizing those targeted via living lab approaches e.g. to ensure effective OL and pave the way for behavior change? What are the knowledge gaps that

limit our capacity to design effective OL As scientists it is likely you have many more questions to offer and discuss
