Secularisation Compact Edition Contemporary Church Issues:

Secularisation Edward Norman, 2003-01-12 Dr Norman thinks we are turning the Last Supper into a self help group Do not read it if you are complacent if you think the Church is not in a state of crisis or if you do not like to think Now out in a convenient compact format Edward Norman's book deals with the possible fate of institutional religion in a post modern world His case study is the Church of England but he uses undoubted knowledge and skill to assess the task for the Church today His conclusions cannot be ignored by Christians of any nationality or tradition Law and Religion in Public Life

Nadirsyah Hosen, Richard Mohr, 2011-04-27 The book is unique in bringing together leading scholars and respected religious leaders to address contemporary issues in the relationship of law religion and the state The book highlights the interaction between secular law and religion with particular attention being given to the implications for law and society religious tolerance and freedom The book focuses on the practical and topical issues that have arisen in recent years in Australia As one of the most ethnically diverse countries in the world a pioneer of multicultural policies in immigration and social justice Australia is a revealing site for contemporary studies in a world afraid of immigration and terrorism issues that are affecting much of the globe **Secularism and the Pursuit of Transcendence, Volume I** Stanley E. Porter, Wendy J.

Porter, 2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent's pursuit of us Secularization and the Working Class

Confronting Secularism in Europe and India Brian Black,Gavin Hyman,Graham M. Smith,2014-06-19 Can secularism continue to provide a foundation for political legitimacy It is often claimed that one of the cultural achievements of the West has been its establishment of secular democracy wherein religious belief is respected but confined to the sphere of private belief In more recent times however political secularism has been increasingly called into question Religious believers in numerous traditions have protested against the distortion and confinement that secularism imposes on their faith Others have become uneasily aware of the way in which secularism no longer commands universal assent in the way it once did Confronting Secularism in Europe and India adds to this debate by staging a creative encounter between European and Indian conceptions of secularism with a view to continuing new and distinctive trajectories of thought about the place and role of secularism in contemporary times Looking at political secularism the relationship between secularism and religion and religious and secular violence this book considers whether there are viable alternatives to secularism in Europe and in India

The Desecularisation of the City David Goodhew,Anthony-Paul Cooper,2018-09-21 Major cities have long been seen as centres of secularisation However the number of congregations in London grew by 50% between 1979 and the present London s churches have been characterised more by growth than by decline in the decades since 1980 The Desecularisation of the City provides the first academic survey of churches in London over recent decades linking them to similar developments in other major cities across the West Produced by a large team of scholars from a range of disciplines this volume offers a striking and original portrait of congregational life in London since 1980 Seventeen chapters explore the diverse localities ethnicities and denominations that make up the church in contemporary London The vitality of London s churches in the last four decades shows that secularisation is far from inevitable in the cities of the future This study necessitates a significant reassessment of the dominant academic portrayal of Christianity in Britain and the West which has mostly depicted cities as secular spaces within a secularising culture It will be of great interest to scholars working across a wide range of disciplines including history sociology religious studies and theology
