Self-Action Leadership (Volume I) Jordan R. Jensen, 2019-08-30 *Self Action Leadership Volumes 1 and 2* provides the first and only books of their kind in the academic world today This two volume set single handedly carves out a new and unique scholarly niche by providing the first

comprehensive and secular manual to holistically address society's universal need for personal leadership and character education. Its single minded aim is the global promotion and proliferation of leadership character and life skills education in nations, communities, organizations, schools, homes, and individual lives everywhere. The concept of Self Action Leadership (SAL) is rooted in 30 years of extensive research spanning the fields of self leadership, leadership action research, character education, and autoethnography. In addition to drawing on the scholarship of these extant fields, SAL simultaneously builds upon them by introducing an original theory and model that executives, administrators, scholars, teachers, and practitioners alike can universally utilize to their own advantages and to the benefit of their colleagues, subordinates, and students.

Volume I: The Self Action Leadership Theory contains prefacing material for the combined texts. It also includes the first four book sections of the two volume set.

Predict Your Future Elizabeth Clare Prophet, 2004. As we look at the universe around us, we see a rhythm to all of life. We discover that it governs both the spiritual and material universes.
