Security Cooperation And Deterrence In Korea:

Security Cooperation and Deterrence in Korea U S Army Command and General Staff Coll, 2014-10-22 The United States insufficient investment in security assistance and cooperation to build the capacity of the Republic of Korea's ROK military before the start of the Korean War contributed to the ROK's inability to deter or effectively conduct military operations The U S investment in security cooperation and strong U S policy support in Korea following the Korean War enabled the U S to gradually withdraw forces from the peninsula while simultaneously building ROK capabilities and deterring a North Korean invasion An analysis of the correlation of U S and ROK capabilities will potentially help future researchers and analysts to identify the critical point where the minimum amount of U S security cooperation efforts will continue to maintain successful deterrence against an invasion from North Korea

Peace Regime Building on the Korean Peninsula and Northeast Asian Security Cooperation Seung-Ho Joo, 2016-05-13 A permanent peace regime on the Korean peninsula has yet to be achieved even though the Korean War came to a halt more than half a century ago Without a peace treaty formally ending the Korean War the two Korean states are technically still at war The current situation on the Korean peninsula is extremely tense and precarious and tensions and distrust between the two Koreas and between the U S and North Korea escalated in the wake of North Korea's second underground nuclear weapons testing in 2009 The editors of this volume conceptually present a two track inter Korean and international approach to Korean peninsula peace regime building They argue that an inter Korean and international approach should be pursued simultaneously for the construction of a permanent peace regime on the Korean peninsula The contributing authors are established specialists and experts on Korean foreign relations and Northeast Asian international relations As natives of the U S Korea China and Japan they provide objective scholarly and diverse perspectives on the Korean peace regime building

North Korea and Security Cooperation in Northeast Asia Tae-Hwan Kwak, Seung-Ho Joo, 2016-05-23 Relations between the two Koreas continue to be hostile volatile and unpredictable with North Korea's nuclear issue remaining as untamed as ever As such there is a growing urgency for security cooperation in Northeast Asia to be given immediate attention The key players in the region the US China Japan and Russia are keenly aware of the security threat of an armed clash between North and South Korea and are committed to denuclearization of the Korean peninsula This book explores the domestic factors of the two Koreas and the four major powers that influence their security policies towards North Korea and Northeast Asia This well thought out and consistently analysed volume has huge potential to frame the conversation on Northeast Asian relations in the coming years

From Deterrence to Engagement Terence Roehrig, 2006-01-01 From Deterrence to Engagement provides a comprehensive examination of the U S South Korea defense relationship from 1945 to the present Using deterrence theory as its framework this work explores the evolving nature of U S interests in a region that became a focal point only after the North Korean invasion in 1950 Author Terence Roehrig addresses the changing nature of the threats to U S interests in Korea especially

North Korea's buildup and its efforts to acquire nuclear weapons and examines specific measures utilized by the United States to implement its deterrence policy. While U.S. policy regarding Korea has changed over the years, this timely and important work argues that although the U.S. commitment to protect its ally has been credible and effective, the same cannot be said for its attempts to prevent North Korean nuclear proliferation. From Deterrence to Engagement, it is certain to find an audience amongst scholars of defense policy, national security, and Korean security relations.

U.S.-Korea Security Cooperation Koryŏ Taehakkyo. Asea Munje Yŏn'guso, 1983 *The Future Of South Korean-U.S. Security Relations* Young-koo Cha, John Q. Blodgett, Michael Mazarr, William J. Korea-US-China Trilateral Relations in the Xi Jinping Era Duck-Koo Chung, Byung-se Yun, 2024-11-15. This book represents the very first comprehensive work that examines Korea-US-China trilateral relations through a strategic triangular lens. It moves beyond conventional discussions of bilateral ties to provide an in-depth analysis of the complexity, conflict, and economic interdependence characterizing the relationships among these three nations. This book takes a fascinating approach by delving into how Xi Jinping's personality and traits influence China's decision making and in turn affect the trilateral relationship between Korea, the U.S., and China. This angle is particularly compelling because it personalizes international relations, grounding geopolitical shifts and strategies in the individual characteristics of a key world leader. By examining Xi Jinping's personal impact, this book can offer insights that differ from traditional analyses focused more on economic or military metrics. This unique perspective could indeed attract readers interested in understanding the nuanced ways in which individual leadership styles impact global politics.

Strategic Japan
Michael J. Green, Zack Cooper, 2014-11-06

Is Japan capable of grand strategy when it comes to foreign policy Modern Japan faces challenges on every front from a rising China and constrained economic growth at home to an ever present threat posed by an increasingly unstable North Korea to an evolving and complex relationship with the West that for so long has served as the bedrock of Japanese foreign policy Prime Minister Shinzo Abe has garnered significant attention for his policies undergirding a path of proactive pacifism for Japan but many questions remain unanswered with regard to what Japan's global role ought to be what it can be and what that role's development would mean for the greater stability of the region and the fate of broader geopolitical alliances across the world While it is clear that both Japan and its allies would be best served by a clear comprehensive and forward thinking Japanese foreign policy blueprint but actually developing and implementing such a policy is understandably easier said than done Fortunately shaping this new strategy is a generation of Japanese foreign policy experts with eyes toward the future of Japanese power and diplomacy In *Strategic Japan* New Approaches to Foreign Policy and the U S Japan Alliance five preeminent scholars Yasuhiro Matsuda Tetsuo Kotani Hiroyasu Akutsu Yoshikazu Kobayashi and Nobuhiro Aizawa discuss Japan's changing role in the world and the high stakes policy issues affecting Japan Asia and the world today Taken together these experts contributions highlight potential areas for enhanced cooperation between the United States and Japan at a time when the West desperately needs a confident and proactive Japan and Japan needs sustained American engagement and deterrence in an Asia Pacific region that will continue to be the site of economic growth and expansion for years to come
